## Profile Summary:

I have a very strong interest in pursuing challenging carrier in the profession of Civil Engineering having 7 Years of Work Experience, as Civil/Structural/Batch Plant/Precast & Material Receiving as Site Engineer and Civil QC Engineer. My responsibilities include both at official level and site activities. I have a diversebackground with much to offer. Summary of all activities during construction, is as follow:

- Layout work (level &coordinates) as per approved (IFC) drawing.
- Excavation work for foundations, tanks, manholes, pipelines etc.
- Backfilling, leveling and compaction work.
- Lean concrete work.
- Rebar/steel cutting, bending as per approved design.
- Formwork as per IFC drawing.
- Reinforced cement concrete (RCC) work.

Other Finishing activities (plaster, painting, tiles and marble, water proofing,stone cladding, curb stone and inter lock paving, wooden and metal doors installation, gypsum board ceiling, terracotta etc).

## **Career Objective:**

My objective is to join a progressive organization involved in the construction of Infrastructures, buildings, plants, so that I can utilize my Knowledge & Talent in the most effective way. My aim is to attain the highest possible level of proficiency through my hard work and Allah's Grace.

## **Education Qualifications:**

CECOS UNIVERSITY OF ENGINEERING AND TECHNOLOGY PESHAWAR  
(BS CIVIL ENGINEERING)

NEBOSH IGC in Occupational Health and Safety

IOSH Managing Safely

OSHA (Construction Industry Standard)

Fire Safety

First Aid In The Workplace

## PROFESSIONAL RELEVANT EXPERIENCE ( 7 YEAR)

### Al Hada Contractig Co LTD 01/12/2022 to till Date (present)

- **Client** : **Ministry of Sports**
- **Project Title** : **Al Kharaj Sports Complex**
- **Designation** : **Civil Site Engineer**

### Al Rashed COMATEC SA LTD 6/2020 to 9/2022

- **Client** : **Al Rashed RAR Group**
- **Project Title** : **Al Rashed Food Factory**
- **Designation** : **Site Engineer**

### Duties and Responsibilities:

- Preparing the daily progress reports based on daily site visit.
- Site supervision of daily site activity and ensure the work is going as per the contract specifications and approved shop drawings.
- Site walkovers & pre-construction survey.
- Management & supervision of work squads.
- Tracking daily progress according to the schedule.
- Reporting of daily progress and other technical issues to Construction Manager.
- Coordination with main warehouse for materials required at site.
- Leded of the day meeting at site to discuss actual progress and planned activities for tomorrow with site foremen.
- Instruct and lead the site crew to work according to the approved drawings.
- Monitoring of all running activities, providing technical advice for the working team based on project specs and approved documents.
- Liaise with the QC department to arrange RFIs (request for inspection) for the completed pieces of work.
- Attend all the inspections and test of materials performed by QC and third party.
- Ensuring projects meet agreed specifications and timescales.
- Ensuring that health and safety and sustainability policies and legislation are adhered to.

### Al Fakkas Contracting Company 6/2019 to 5/2020

- **Client** : **Ministry of Transportation , ksa**
- **Project Title** : **Completion of some roads in Al Baha Region (Group5)**
- **Designation** : **Civil Site Supervisor**

---

### Duties and Responsibilities:

- Coordinate with construction crew for ongoing civil/structural activities, including but not limited to excavation, backfilling, and compaction, rebar inspection, formwork inspection, Field Density Test,

- concrete pouring, asphaltting, etc.
- Monitor and/or perform quality activities at all stages of projects. Assure that the work is in compliance with engineering requirements, standards, procedures, specifications of the project.
- Verify all samples, certificates of laborites and field test and maintain all filling system for all quality control procedures, record report etc.
- Perform “Hold”, “Witness” and “Surveillance” inspections and tests at construction sites to ensure compliance with quality requirements and project specifications.
- Review the relevant documents prior to start of construction e.g. IFC, project specification etc.
- Inspection of structural steel installation for building, pipe rack, equipment supporting structural as per the approved drawing.
- Proactive to construction crew for advising to correct the activities which could lead to non-conformance.
- Advice field staff for poor quality of work and deficiencies detected during inspection and assist on remedial works required.
- To ensure site activities are as per specification and standards.
- Vigilant for upcoming scheduled activities in advance to coordinate with 3rd parties in advance for the activities require testing e.g. FDT, Concreting, and Asphaltting etc.
- Complies with all statutory requirements connected with the implementation of project.
- Coordinate with construction crew for ongoing civil/structural activities, including but not limited to excavation, backfilling, and compaction, rebar inspection, formwork inspection, Field Density Test, concrete pouring, asphaltting, etc.
- Conducting inspection as per approved inspection and test plan (ITP) perform witness, testing and records result of inspection Coordinate with the independent testing laboratory in performing necessary tests a review all the test results.

### **JERS Consultancy (PVT) LTD PAKISTAN 1/2018 to 5/2019**

- **Client** : **Defence Housing Authority (DHA)**
- **Project Title** : **Construction of Road Building**
- **Designation** : **QC Civil Engineer**

### **Duties and Responsibilities:**

- Perform Site Inspection/ Monitoring of Quality activities like excavation, backfilling, compaction, formworks, reinforcing bars installation, concrete placement are implemented as per plan and in accordance with the project Specifications.
- Accompany the Clint’s representative to carry out inspections and released hold points.
- Monitoring the concrete pouring and curing of mass concrete structures, while conducting Heat of Hydration Test for mass concrete.
- Monitor and/or perform quality activities at all stages of projects. Assure that the work is in compliance with engineering requirements, standards, procedures, specifications of the project.
- Issuing proactive to construction team for correct the activities, which could lead to non-conformance with standards and project specifications.
- Issue NCR’s when and where required and to check that the construction departments provide timely appropriate corrective and preventive action.
- Conducting inspection as per approved inspection and test plan (ITP) perform witness, testing and records result of inspection Coordinate with the independent testing laboratory in performing necessary tests a review all the test results.

- Initiate the RFI's for Client's witness of inspection points as per ITPs..
- Complies with all statutory requirements connected with the implementation of project.
- Inspection of all the construction activities as per drawing like Earth Work, Rebar, Formwork Concrete works of Base, Columns and Beams.
- Prepared the RFI & attached the all required documents as per the IFC Drawing and supplier recommendations.
- Prepared the daily surveillance report
- Monitor the placement of asphalt binder course.
- Check the temperature of asphalt with third party to fulfill the requirement of standards.
- Check the road marking & signage as per the approved drawing.
- Take the asphalt core sample & send the third party for further verification.
- Monitor and/or perform quality activities at all stages of projects. Assure that the work is in compliance with engineering requirements, standards, procedures, specifications of the project.
- Conducting inspection as per approved inspection and test plan (ITP) perform witness, testing and records result of inspection Coordinate with the independent testing laboratory in performing necessary tests a review all the test results.

### Computer Literacy:

- **MS Windows:** Working With Different Windows, Its Troubleshooting and Installation and other Software
- **MS Office:** I Have Good Knowledge Of MS Word, MS Excel and Power Point Etc.
- **Internet:** Good Knowledge of Internet.
- **AutoCAD:** I Can Prepare and Edit Drawings in AutoCAD.
- **AutoCAD Civil 3D:** I Can Make Road Profile, Alignment And Coordinate Transfer In AutoCAD Civil 3
- **SAP:** I Can Work On SAP

### **Survey Camp:**

- Attend Survey Camp from the CECOS UNIVERSITY OF SCIENCE AND TECHNOLOGY PESHAWAR site at Abbottabad in January 2018 for the purpose of learning Practical Surveying performed in different fields for different Purposes.

### **Languages:**

- English (Full Professional proficiency)
- Urdu (Full Professional Proficiency)
- Pashto (Full Professional Proficiency)

### **Finally:**

I feel that working with your team will be good advancement to my career objectives and I would like very much to be an active member of your staff.
