**Iqama Status:** Transferable | **KSA Driving License:** Yes | **Nationality:** Pakistan  
**SCE Registered:** Civil Engineering Technician | **NTC PAK Registered:** Civil Engineering Technologist

---

## Objective

---

Highly skilled and driven Civil Engineer with over 6 years of extensive experience in the construction industry, specializing in high-rise building projects. Expert in interpreting and analyzing detailed structural drawings, managing projects efficiently, and applying advanced construction technologies to achieve outstanding results. Dedicated to continuous professional growth, adopting innovative techniques, and maintaining the highest standards of quality, safety, and sustainability. Passionate about contributing to ambitious engineering projects that push boundaries and set new benchmarks in the industry. Seeking to join a dynamic organization where I can collaborate with experts, enhance my knowledge, and deliver impactful results through my expertise and commitment.

---

## Education

---

- **Indus University**

Bachelor of Civil Engineering Technology

- **Jinnah Polytechnic Institute**

Diploma of Associate Engineering (DAE) in Civil Engineering

- **Pak Osis Grammar School**

Secondary School Certificate

---

## Certifications

---

- NEBOSH International General Certificate (IGC) in Occupational Safety and Health
- IOSH Managing Safely
- AutoCAD Short Course

---

## Work Experience

---

**Fariha Builders & Developers** (Aug/2022 – Oct/2024)

Site Engineer | Project: Aziz Excellency (2 Basement + 16 Floors) Area: **14,400 sq. ft.**

**RJ Builders & Developers, Karachi Pakistan** (Jan/2021 – Jul/2022)

Site Supervisor | Project: RJ Towers (2 Basement + 24 Floors, 3 Towers) Area: **63,000 sq. ft.**

**Karachi Construction Company, Karachi Pakistan** (Jan/2019 – Aug/2021)

Assistant Site Engineer | Project: Clifton Icon (2 Basement + 42 Floors) Area: **22,500 sq. ft**

**Imran Construction Company (ICC), Karachi Pakistan** (Jun/2017 – Dec/2018)

Assistant Site Engineer (Internship) | Project : Multiple

**MS Engineering Company Pvt Ltd, Karachi Pakistan** (Feb/2017 – May/2017)

Trainee Intern | Project: Orange Line Bus Rapid System (Sindh Gov.)

---

## Duties and Responsibilities

---

- **Supervised construction teams**, ensuring timely project completion within budget and to the highest quality and safety standards.
- Managed **daily site operations**, coordinating labor, materials, and equipment, and reporting to senior engineers and project managers.
- **Resolved site issues** quickly, ensuring construction activities stayed on track without delays or extra costs.
- **Supervised subcontractors and suppliers**, ensuring timely deliveries and compliance with quality standards.
- Ensured compliance with **building codes and local regulations**, conducting site inspections and making adjustments when necessary.
- Developed **site management plans** to optimize labor, material use, and equipment to improve project efficiency.
- **Reviewed and interpreted** drawings, ensuring designs were implemented accurately and resolving issues that arose during construction.
- Conducted **quality control inspections**, identifying and addressing issues early to avoid delays or cost overruns.
- Worked with **architects, engineers, and subcontractors** to troubleshoot issues and meet project goals.
- Managed **site logistics**, ensuring smooth material flow and equipment availability to prevent delays.
- Implemented and enforced **safety protocols**, ensuring compliance with local regulations and a safe working environment.
- Prepared and presented **technical reports** and progress updates, providing clear insights to stakeholders.

- **Monitored project budgets**, identifying cost-saving opportunities and ensuring efficient resource use.
- Produced **Bills of Quantities (BOQ)** and **Bar Bending Schedules (BBS)** for accurate material estimation.
- Participated in **safety audits** to maintain high safety standards and compliance with international regulations.

---

## Skills

---

- **Software Proficiency:** AutoCAD, MS Office Suite (Word, Excel, PowerPoint)
- **Project Management:** Expertise in overseeing high-rise construction projects from planning to execution.
- **Technical Reporting:** Skilled in preparing technical reports and project documentation for senior management.
- **Quality Assurance:** Strong ability to conduct inspections and ensure compliance with industry standards.
- **Collaboration:** Effective in working with architects, engineers, and stakeholders to resolve challenges.
- **Safety Compliance:** Knowledgeable in implementing and enforcing safety standards and regulations.
- **Site Logistics:** Expertise in managing procurement, equipment handling, and workforce coordination.
- **Design Interpretation:** Adept at reviewing and interpreting architectural and structural drawings.
- **BOQ & BBS Preparation:** Proficient in preparing Bills of Quantities and Bar Bending Schedules.
- **Construction Drawings:** In-depth understanding of construction working drawings for accurate project execution.

## Declaration

---

I have over 6 years of experience in civil engineering, working on projects across design, construction, and management. My expertise includes site analysis, project planning, structural design, and implementing engineering solutions, contributing to a strong understanding of civil engineering practices. This declaration accurately reflects my professional experience.
