

Hala Adel Hamdi

Senior Architect Engineer

Address: Jeddah, Saudi Arabia

Phone: +966 56 030 0845 - **Email:** arch.hala1@gmail.com - **LinkedIn:** <https://www.linkedin.com/in/hala-hamdi-2019/>

Professional Summary

Lead Architect with a proven track record at Hamza Mohammed Al Deri Construction Company, showcasing expertise in design development and team collaboration. Excelled in integrating green building practices and innovative solutions, significantly enhancing project efficiency and stakeholder satisfaction. Renowned for problem-solving and material selection, consistently delivering projects that exceed expectations.

Experience

Lead Architect

September 2023 to Present

Hamza Mohammed Al Deri Construction Company - Jeddah

- Lead initial planning and conceptual design stages, focusing on creating comprehensive and detailed architectural drawings and specifications, including floor plans, site plans, elevations, and section details, using BIM
- Serve as the primary point of communication among project stakeholders, including clients, sub-contractors, consultants, and team members, to ensure cohesive project progression
- Facilitate the integration of structural, mechanical, and electrical systems into architectural designs through effective coordination with respective engineers and designers
- Oversee project timelines, schedules, and resource allocation to ensure timely and budget-conscious project completion
- Adjust project plans as necessary to address any arising challenges or risks, and maintain comprehensive project documentation throughout the project lifecycle
- Conduct thorough reviews of all construction drawings and specifications for approved projects, ensuring adherence to quality standards and compliance with all relevant building codes and regulations
- Regularly visit construction sites to monitor compliance with architectural plans and specifications, and respond promptly to any issues by providing necessary details or drawings
- Review and approve materials submittals to ensure they align with project specifications and quality expectations.
- Provided technical leadership across multiple teams in the development and implementation of innovative solutions.
- Incorporated environmentally friendly building practices and concepts, such as Leadership in Energy and Environmental Design (LEED) standards.
- Writing and presenting reports for example: (RFI, RFP) and architectural proposals.

BIM Architect

June 2023 to September 2023

Solid Home Buildings Industrial Company - Jeddah

- Utilized advanced 3D modeling and rendering techniques to develop detailed architectural plans, elevations, and sections, significantly enhancing project presentations and stakeholder engagement.
- Led the development and revision of construction documents, including as-built CAD drawings and shop drawings for residential and commercial projects, ensuring precision and compliance with specifications.
- Oversaw the construction phase of projects, from contractor selection through to completion, conducting regular site visits to monitor progress, resolve issues, and guarantee quality control.
- Maintained ongoing communication with clients, providing updates and adjustments throughout the project lifecycle to ensure satisfaction and build lasting relationships.

BIM Architect

June 2022 to June 2023

Solid Home Buildings Industrial Company - Jeddah

- Spearheaded the conceptualization and design of key projects including a state-of-the-art precast factory at MODON, Saudi Arabia, and the innovative SHB office building, demonstrating adeptness in understanding and translating client visions into tangible designs.
- Conducted comprehensive site analyses and feasibility studies, ensuring all designs adhered to local zoning laws, environmental regulations, and sustainability principles, thereby minimizing impact and maximizing efficiency.
- Collaborated closely with multidisciplinary teams, coordinating efforts to integrate structural, mechanical, and electrical systems into cohesive and functional designs.
- Attended meetings with clients to discuss project details such as timeline expectations or budget concerns.
- Analyzed engineering data such as reports or survey results to inform design decisions.

Intern Architect

July 2021 to September 2021

Rayan Hakeem Engineering Consultant - Jeddah

- Advised clients on the best design solutions for their specific needs.
- Created 3D models of building designs to present to clients.
- Provided conceptual solution model as part of pre-sales activities.
- Presented final design proposals at client meetings before beginning implementation.

Education

Bachelor of Architecture : Cum Laude Honor Degree, May 2019

Savannah College of Art & Design - Savannah, GA, US

Skills

- Revit
- AutoCAD
- Lumion
- Photoshop

Certifications

- NCI Charrette System Architect Training
- Project Management Professional (PMP)
- Saudi Building Codes (SCE 1101)
- Autodesk Revit Certified Professional Certification

Licenses

Architect Certified Professional Accreditation from Saudi Council of Engineer
