Riyadh/Saudi Arabia

SKILLS

Structural design and analysis
 Total Quality Management (TQM)
 Geotechnical engineering
 soil mechanics
 Construction supervision
 Project management
 Technical writing
 Technical communication
 Knowledge of local regulations
 building codes
 Health and safety management
 Planning site inspection
 Problems solving

Software skills

SAP
 AutoCAD
 Project Management
 Csi column
 Etabs
 Primavera p6
 Revit structural ASD
 Cutting optimization
 Microsoft Office
 programs(PowerPoint, word)
 Excellent internet user
 Highly computer literate
 Safe
 Excel

Languages

Arabic (Native)
 English (Advanced)

summary

I Am Experienced Civil Engineer Skilled In Civil Engineering , Quality Control , Geotechnical Engineering And Construction Supervision . Specializes In Sub-Structures, Super-Structures And Deep Foundation Systems Such As Bored Piles, Barrettes And Diaphragm Walls And Residential Building Seeking A Challenging Position To Apply My Skills And Deliver Successful Projects

EDUCATION

Mansoura University

2016

Bachelor's degree in Civil Engineering

Excellent with hons (GBA= (84.03 + 1)%)

Experience

Abdullah Al-Othaim markets company

AUG. 2024 - Ongoing

Technical office manager

Responsibility.

- Responsible for preparing projects ideas.
- Responsible for reviewing design, tender, drawings and bills of quantities.
- Communications with consultant's offices during project license and design.
- Follow up preparing 3D views.
- Manage a design team consists of architecture engineers, civil engineers, electrical engineers, mechanical engineers.
- Follow up 25 projects all over KSA

Orascom Construction Company

Feb. 2024 – Agu. 2024

Senior Site Civil Engineer

Orascom Construction (OC) is a leading global engineering and construction contractor primarily focused on infrastructure, industrial and high-end commercial projects in the Middle East, Africa and United States.

Responsibility:

- Supervise the progress and ongoing operations of the site.
- Completion of the project within scope, budget, and scheduled duration.
- Coordinate with the procurement department on the need for various site resources.

Personal Details

Date of Birth : 22/2/1993

Marital Status : Married

Religion : Muslim

Place : Egypt

Training

A housing in New Damietta in the design and implementation construction.

A training course for a month in Mansoura in the design of structural elements using sap 2000 and etabs.

Training at Archi Rodon Constructions (Overseas) Co. (CAIRO WEST THERMAL POWER PLANT PROJECT) - The training included the following activities: 1- Piling. 2- Sheet Piling. 3- Civil Works. 4- Steel Structure Building.

-A training course for 2 month in Orascom in primavera.

-A training course for 2 month in Orascom in field.

- Review all methods of statement for all tasks required for the project.
- Responsible for scheduling reports and updating them weekly to show project progress.
- Responsible for following up with the purchasing department for procurement of materials and on-time delivery to the job site.
- Directly interacts with the client, meets client reporting needs, and participates in site meetings.

List of projects

- 1. Project: The Metro Line Phase1 CP402

EGYDRILL MISR COMPANY

Agu. 2021 – Jan 2024

Senior Civil Engineer

Engineering & Contracting Company specialist in geotechnical Engineering and Deep Foundations (bored piles, stone column , anchor piles, Struts , diaphragm walls , Barrettes , cfa piles , soil nailing, shotcrete, soil injection , soil improvement and shoring systems).

Responsibility:

- Supervise the progress and ongoing operations of the site.
- Completion of the project within scope, budget, and scheduled duration.
- Implementation of bored piles (offshore-onshore), diaphragm walls, and soil improvement techniques.
- Coordinate with the procurement department on the need for various site resources.
- Review all methods of statement for all tasks required for the project.
- Responsible for scheduling reports and updating them weekly to show project progress.
- Responsible for following up with the purchasing department for procurement of materials and on-time delivery to the job site.
- Directly interacts with the client, meets client reporting needs, and participates in site meetings.
- Equipment management: hydro mill Soilmec (SC-130, SC-135), hydraulic grab (SC- 70, SC-70,SC-90) and soilmec bored (sr-45, sr-65,sr-80).

List of Projects:

Project: Multi-Purpose Terminal in Al-Dekheila Seaport - Berth 100.

1. Client: EDECS El Dawlia for Engineering & Contracting Company. Made more than 500 m of length for bored pile and diaphragm wall (cut off end).

Project: Development of Ain Sokhna port; Sokhna Quay Wall Extension.

1. Client: Modern Construction & Equipment Company. Made more than 700 m of length for Barrettes , diaphragm wall (cut off end) and bored piles .

2. Client: EDECS El Dawlia for Engineering & Contracting Company. Made more than 850 m of length for Barrettes

3. Client: APEX & Contracting Company. Made more than 450 m of length for bored pile, Barrettes and diaphragm wall (cut off).
4. Client: EL Fiky for Engineering & Contracting Company. Made more than 150 m of length for and Diaphragm wall (cut off).
Project: Water desalination plant
1. Made more 70 panel (2.8*100) with hydraulic grab (using water stop techniques) and treatments by injection and 110 of Anchor grout length=14 m and free length =14 m) with (SM-14) using struts support.

❖ ELEKHLAS CONTRACTING COMPANY

Jun 2019- Jul 2021

Site Civil Engineer

Engineering & Contracting Company based on residential buildings and Horizontal directional drilling.

Responsibility:

- Reviewing design and tender drawings make shop drawings layouts.
- making daily reports of executed works.
- following up and monitoring contractors.
- receiving executed works, and handing over consultants and Conducting the engineering and factual inventory of the activities.
- carried out on the nature and performing the operational position of the project.
- Ensuring all works were completed on time and within budget.
- Managing , Execution of all HDD works including(site visit , Design profiles for crossing, review the design and finishing the approval with the client.
- supervising site preparations.
- follow up the crossing process including pilot bore , reaming stages and pipeline pulling.
- make AS-BUILT for crossing.

List of projects:

- 1. Project: Performed four buildings in damietta consists of 7 floors the floor contains 2 unit.
- 2. Project: Performed three villas in Ras Elbar City.
- 3. Project: Three Rc building consists 5 floors in new Damietta.
- 4. Project: 107 Horizontal Directional Drilling crossing HDD steering Engineer

❖ Ultra Design Company

Dec. 2017 – May 2019

Junior Civil Engineer

Engineering & Contracting Company based on construction and finishes stages works for commercial and residential buildings.

Responsibility:

- Reviewing design and tender drawings
- make shop drawings layouts.
- making daily reports of executed works.
- receiving executed works, and handing over
- consultants and Conducting the engineering and
- Factual inventory of the activities.
- carried out on the nature and performing the
- operational position of the project.
- Ensuring all works were completed on time and within
- budget.

List of Projects:

- 1. Project: Construction and finishes exterior and interior in almokatam (Cairo from excavation to key) executing three villas.
- 2. Project: Four clothes shop finishes exterior and interior in Al fayoum with (cladding and glass front).
- 3. Project: two clothes shop in banha with (cladding and glass front) and interior finishes.
