materials and delivery times, and contacting warehouses to provide advance pricing in a timely manner, calculating technical parts of required parts, taking into account customer feedback on the materials sent to them and Customers were satisfied with the services that I provide them through coordination with external and local suppliers to coordinate the specifications required by the customer, and I have a certificate of appreciation from the company for my collaboration and I have been honored more than once.

## • EDUCATION AND TRAINING

---

- 15-09-2017 – 15-12-2022 – Av. das Forças Armadas. . Lisboa. Portugal

**MASTER OF ARCHITECTURE (Integrated Master) - ISCTE - university institute of lisbon**

Engineering, manufacturing and construction industries: *Architecture and urbanism*

Through various courses between architectural theory, anthropology, and urban style, I understood the style of ancient architects and the legacy they left behind between culture, history, and geography, the differences between the Europeans, and what is the role of architects to find solutions consistent with the lived reality, and what it takes for the project to become distinctive with simplicity and in harmony with the surrounding area.

**FINAL GRADE** : 13

**LEVEL** 7 EQF
