EXPERIENCE

Kahuna Contracting Company Limited (SEPCO) Oil & Gas – Civil Engineer (Technical Auditor)

July 2024 - Present | Lagos (Nigeria)

- Review of SO/WO/PR/BOQ and drawings for Civil Projects Works-Critical Equipment Foundations, Infrastructural works, Process Plants, Structural works etc.
- Surveillance audits/verification/tracking of Construction material-receipts, issue, consumption, return & final reconciliation.
- Routine surveillance audits/verification of ongoing works /activities with respect to quantity and quality perspective and identify deviations to SOPs/Standard Engineering Practices and timely capturing deviations/violations.
- Conduct technical audits to ensure compliance, evaluate performance, and enhance operational efficiency.
- Review Design and Plans: Analyze the design, drawings, and plans to ensure they meet the required standards, specifications, and codes.
- Inspect Materials and Equipment: Verify that the materials and equipment used are of the specified quality and are appropriate for the project.
- Conduct Site Inspections: Visit the construction site to check that the work is being carried out according to the design plans and that the quality of work meets the required standards.
- Identify and Report Issues: Identify any deficiencies, deviations, or non-compliance issues and report them to the project management team.
- Prepare Audit Reports: Document the findings of the audit in a detailed report, including recommendations and conclusions.
- Check Documentation: Review project documentation, including contracts, permits, and inspection reports, to ensure all necessary paperwork is complete and accurate.

M.S Triveni Construction – Civil – Planning Engineer

July 2023 – June 2024 | Prayagraj (India)

- Spearheaded the development and management of project schedules using MS Project, achieving a reduction in delays through improved planning and resource optimization.
- Successfully managed project budgets, implementing cost-saving strategies that resulted in a reduction in overall project expenses while ensuring on-time completion.
- Optimized resource allocation, enhancing workforce productivity and minimizing resource idle time through strategic planning and efficient scheduling.
- Proactively identified and mitigated project risks, developing effective contingency plans that minimized disruptions and ensured projects adhered to timelines and budgets.
- Established streamlined reporting protocols, providing real-time project updates to stakeholders, which enhanced communication and facilitated data-driven decision-making.
- Managed planning for large-scale construction projects, coordinating with multiple teams to ensure seamless execution, timely delivery, and adherence to quality standards.
- Led successful project closeouts, meeting all contractual requirements and delivering projects to clients on schedule, achieving a client satisfaction rate.
- Managed and coordinated multiple concurrent projects, consistently delivering all projects on time and within budget, improving overall project delivery efficiency.
- Ensured all planning activities complied with industry regulations and safety standards, resulting in zero safety incidents during project execution and smooth regulatory approvals.

M.S Triveni Construction – Civil - (Intern)

July 2020 – December 2020 | Prayagraj (India)

Experience as a Site Engineer Management Intern

- Acquired practical skills.
- Exhibited communication, leadership, and organizational skills.
- Successfully addressed industry challenges.

EDUCATION

- **National Institute of Technology Hamirpur** Master of Technology - Civil Engineering Hamirpur-Himachal Pradesh-(India) (2021-2023)
- **Axis Institute of Engineering and Management** Bachelor of Technology - Civil Engineering Kanpur-Uttar Pradesh (India) (2018-2021)
- **Allahabad College of Engineering and Management** Diploma - Civil Engineering Prayagraj-Uttar Pradesh (India) (2015 – 2018)
- **Vishnu Bhagwan Public School** High School Prayagraj-Uttar Pradesh (India) (2014 – 2015)

SKILLS

- **Technical Skills:** MS Project | AutoCAD | QA/QC | Risk Assessment | Project Scheduling
- **Soft Skills:** Leadership | Problem-solving | Attention to Detail | Time Management | Team Collaboration | Decision-Making

PROJECTS

- M. Tech Estimation of Passenger Car Unit for E-Rickshaw in Mixed Traffic Condition Prevalent in India 20 - 21 April - 2023
Keywords - Academic Research, Project Management, Participation, Competition
- International Conference on Sustainable Infrastructure: Innovations, Opportunities and Challenges (SIIOC 2023)
- B. Tech Impact of Traffic on Carbon Monoxide Concentration Near Urban Area Mid-Block 07 - July 2021
Keywords - Publication, Academic Research, Paper Publish, Research Work
- Published in International Journal of All Research Education & Scientific Methods.

CERTIFICATIONS

- **John Holland Australia** - Civil Engineering Job Simulation
- **PwC Switzerland** - Power BI Job Simulation
- International Conference on Sustainable Infrastructure Innovations Opportunities and Challenges (SIIOC 2023)
- Government of India (Indian Space Research Organization) Indian Institute of Remote Sensing, Dehradun
- Best Member Award in Swachh Bharat Abhiyan Club of NIT Hamirpur.
- Discipline and Security Committee Head in Hill 'fair from 18th - 20th November 2022

ACCOMPLISHMENTS

- **Social Media Head** Sustainability Club of NIT Hamirpur.
- Organized **Swachhata Pakwada** under Swachh Bharat Abhiyan from 1st - 15th October
- 2022. Member of **Swachh Bharat Abhiyan** Club of NIT Hamirpur.
- Participation in **TAAMIIR** Building Layout Competition held at Axis Colleges
- Coordinated the Event **Razzmatazz** at Axis Colleges.

LANGUAGE

- English, Hindi & Urdu

HOBBIES

- Photography
- Explore New Places
- Reading Books
- Playing Cricket
