CIVIL SITE ENGINEER

+966570242582

Sameemudeen143@gmail.com

Riyadh saudi arabia

## SUMMARY

Responsible for Reading and interpreting construction drawings and specifications, and identify discrepancies or conflicts within the documents, and also Conducting and documenting observations of construction as it progresses.

Skills : Developing Skills, Planning Skills, Team Work

## SKILLS

- Strong problem-solving
- Interpersonal Skills
- Collaboration
- Critical thinking
- Quality control
- Communication
- Testing & documentation
- Attention to detail

## WORK EXPERIENCE

**Employer** : Hawel contracting company  
**contractor** : Larsen & Toubro saudi arabia  
**project.** : Arrass 2 ,2000mw solar substation project  
**Client.** : Acwa power  
**position.** : civil site engineer  
**Duration.** : 2023 to current

**Employer** : Formula arabia contracting company  
**contractor** : Larsen & Toubro saudi arabia  
**project.** : Neom Green hydrogen 2.97 Gw solar substation project  
**Client.** : Air products  
**position.** : civil site engineer  
**Duration.** : 2023 (6 months )

**contractor** : shankland cox llc -Abudhabi  
**project.** : OHTL Transmission &220kv/380kv electric substation project  
**Client.** : DEWA ( Dubai electricity & water authority)  
**position.** : civil site engineer  
**Duration.** : 2022 to 2023

**contractor** : Larsen & Toubro LLC - India  
**project.** : metro tunnels & precast railway flyovers  
**Client.** : CMRT - chennai metro rail limited  
**position.** : civil QC inspector  
**Duration.** : 2018 to 2021

## WORK RESPONSIBILITIES

- Develop inspection plans and schedules for based on project requirements and industry standards.
- Evaluate vendors and suppliers for the quality and suitability of equipment components.
- responsible for conceptual, preliminary, and final design calculations of high voltage substation, transmission, and distribution of steel structures.
- Ensure that all quality control activities are performed in compliance with safety regulations and guidelines.
- Prepare detailed inspection reports summarizing findings, observations, and recommendations.
- Collaborate with engineering teams, project managers, and other stakeholders to address quality-related concerns.
