### **To Whom It May Concern,**

I am writing to express my enthusiasm for the opportunity to contribute to your organization. As a recent graduate with a Bachelor of Architecture from Mansoura College, graduating in 2024 with a Very Good grade, I am eager to apply my technical expertise and creative problem-solving skills to contribute effectively to your team.

During my academic and professional journey, I gained valuable hands-on experience through a technical training internship at Al-Moqawel Al-Arabi Company in Riyadh, Saudi Arabia, where I actively engaged in design and execution processes. This experience allowed me to enhance my understanding of architectural practices and apply my knowledge in real-world scenarios.

I have completed numerous specialized courses, including BIM Revit Shop Drawing and Basics and Principles of Twinmotion, which equipped me with advanced design and visualization skills. Additionally, my training in software such as AutoCAD, Revit Architecture, 3D Max, Photoshop, and Twinmotion has enabled me to create precise and visually compelling designs.

Beyond technical expertise, I bring proficiency in tools like Microsoft Office, and social media platforms, alongside strong internet research capabilities. My skill set allows me to adapt to diverse challenges and contribute effectively to both design and project management aspects.

I am eager to bring my passion for architecture and my commitment to innovation to your organization. I would welcome the opportunity to discuss how my skills and experiences align with your team's goals.

Thank you for considering my application.

**Sincerely,**

*Abubakr Adel Mohamed El-Said*
