## MECHANICAL ENGINEER

Tabouk | ahmed.kde99@gmail.com | +966533584712

Mechanical Engineer with hands-on experience in site work, project supervision, coordinating work between engineers, workers and equipment, and completing projects correctly and on time. I have analytical skills and the ability to solve problems effectively. I aspire to work in an environment that supports continuous development. I look forward to contributing to achieving tangible successes and achieving professional growth in the field of mechanical engineering.

### SKILLS

Strong time management and organizational skills. Proficient in Microsoft Office Suite. Critical thinking and analytical problem-solving. Effective team collaboration and communication.

### KEY ACHIEVEMENTS

- Team Management.** Leading a team of 15 blasting engineers and 130 workers, which contributed to improving performance and increasing the speed of work completion.
- Implementing safety standards.** Achieving a zero accident rate on sites from the beginning to the end of projects.

### PROFESSIONAL EXPERIENCE

#### Site Engineer, Raddad Al-Madina Company May 2024 - Present

- Follow up on the progress of heavy equipment and supervise maintenance work.
- Supervising maintenance and firefighting systems in Company residence.
- Supervising site operations and determining drilling points and depths for equipment (drilling machines).

#### Planning Engineer, Raddad Al-Madina Company Nov 2023 - April 2024

- Reduce costs and time by analyzing workflows.
- Manage resources to achieve project objectives efficiently.
- Experience in the field of Tunnel and Working in rock sectors (NEOM Spine Infrastructure Running Tunnels (Mountain Section)Lots 4 and 5).
- Cooperation in completing work quickly and accurately (Military Road Factory Project).

#### Mechanical Engineer, Aljarbou Contracting foundation Aug 2022 - May 2023

- Assistant planning engineer.
- Mechanical engineer in the company's central workshop.

### EDUCATION

#### Bachelor of Mechanical Engineering Sep 2019 - Aug 2023

Bisha University

- Completed graduation project with distinction (A+): Grain Refinement.
- Attending university awareness courses, such as (Right Direction, Career Guidance Forum).

### ADDITIONAL INFORMATION

- Languages:** Arabic, Native. - English, Intermediate.
- Course:** Faculty of Engineering Machine Theory Bisha University, Technical and implementation office, Captain Safty & Health Admin, Time management course at the University of Bisha, Initial task order cycle, Fire fighting, Hvac, Plumbing, revit.
- Certifications and Licenses:** Valid driving license - Member of the Saudi Council of Engineers (Membership No. 998778, valid).
