Professional Experience

QA/QC Engineer

QBS Construction WLL.

Jan-2023 – Till Date, Qatar.

- **Project Title:** Construction of Remaining Works of C2019/06, Road and Infrastructure in Al Mearad and Southwest Muaither Package 1 (DW044-P01).
- **Client:** Public Works Authority – Ashghal.
- **Consultant:** ITAL.
- **Scope:** Drainage's, Roads & Infrastructure.

Roles & Responsibilities:

- Quality Assurance: Ensuring that the project meets the quality standards set by the client or the organization. This includes creating and implementing quality control plans, performing inspections, and conducting audits.
- Quality Control: to ensure that all materials used in the construction of the infrastructure meet the required quality standards. This includes developing and implementing quality control plans, conducting inspections, and providing feedback to suppliers and contractors.
- Monitoring and testing the quality of the materials and products used in the construction of the infrastructure. This includes inspecting and testing the construction materials such as concrete, steel, etc.
- Documentation: Creating and maintaining all project-related documents such as inspection reports, quality control reports, and safety reports.
- Ensuring that adequately trained and experienced QC staffs are available to fulfil the required tasks
- Raise Non-Conformance Report when the activities deviate from the Contract Specification, IFC Drawings, or normal Construction industry practices. Maintain NCR log. Take part in the identification and review of corrective actions as well as preventive actions. Closed out non-conformities and ensure that corrective actions were implemented to avoid re-occurrence and eliminate potential non-conformities. Monitor the effectiveness of the treatment of non-conformities on construction site.
- Key Deliverables: Fully acquaint with Standard Specifications for Roads & Bridges, relevant AFC Drawings, and standard procedures for sampling, testing & quality control of materials, Safety Procedures and Contract requirements and ensure that all works are in compliance.
- Supervise asphalt & concrete trial mixes prior to commencement of asphalt and concrete production. Review and approval of mix design and asphalt job mix
- Preparation of Material Approval Request (MAR's) for consultant approval and client approvals, Bituminous mixtures.
- Following up on corrective actions: Following up with the organization to ensure that any corrective actions that were recommended during the audit have been implemented and are effective.

Professional Qualification:

- QMS ISO 9001:2015 Lead Auditor.

Professional Accomplishments:

- Certificate of Appreciation: Recognized by QBS/ITAL for exceptional contributions to DW044-P01A at a QA/QC level (Nov 2024)

Additional Qualifications:

- Auto CAD, Revit Architecture, MS office.

Additional Trainings:

- Installation of Corrugated HDPE Pipes & fittings
- Installation of Waterproofing Application
- Attended Heat Stress Workshop 2018 from the State of Qatar (Ministry of Public Health, March 2018).
- Evacuation Training

Educational Qualification:

- 2011 to 2015 - Bachelor of Technology (B.Tech.) in Civil Engineering, JNTUH, HYD.

Personal Details:

QID No.: 29435622553,

Passport No.: RO153553,

Nationality: Indian,

Date of Birth: 06-07-1994,

Marital Status: Married,

Religion: Hindu.

Languages Known: English, Hindi & Telugu.

- Planning audits: Developing a plan for the audit based on the scope of the QMS and the requirements of the ISO 9001 standard. This includes determining the audit objectives, scheduling the audit, and selecting the audit team.
- Reporting audit findings: Preparing a report that summarizes the findings of the audit and identifies any non-conformances or opportunities for improvement. This report should include recommendations for corrective action.
- Prepare and submit on a regular basis Materials/Quality Report to the Resident Engineer.
- Attend the weekly & monthly quality meeting with the Consultant.

QA/QC Engineer

QBS Construction WLL.

Sep -2021 to Jan-2023, Qatar.

- **Project Title:** Design and Build of Phase One of Permanent Location of Darb Al Saai.
- **Client:** Private Engineering Office.
- **Consultant:** GHD Global Pty Ltd.
- **Scope:** Buildings, Substations, Drainage's, Roads & Infrastructure.

Roles & Responsibilities:

- Review Quality Construction, Design, Manufacture/Vendors & Suppliers Plans, Method Statements, Inspection and Test
- Plans, Material Approval Submittals, and Technical Specifications to verify compliance with quality management system requirements.
- Supervise and manage all Quality Control functions in the workplace and manage a team of QA/QC Engineers and Inspectors for day-to-day QA/QC functions.
- Responsible for the preparation and getting client approval of Project Quality Plan, ITP's, Method statement and other technical Work instructions in accordance with contract specifications and company/project quality management control system requirements.
- Interface and coordinate with client for QC matters and coordinate with third party inspection agencies for all related inspection activities.
- Attends weekly quality walks and weekly quality meetings with Clients and Supervision Consultants to resolve quality issues and to avoid potential NCRs.
- Issuing Internal Nonconformance to Construction Team and Subcontractors if found any Nonconformance.
- Maintenance team for 4 months and handing over for Civil defense and Kahramaa.
- Conducts snagging/punch list prior to handing-over of completed works

QA/QC Inspector

Hyundai Engineering & Construction,

Nov -2020 to Aug -2021, Qatar.

- **Project details:** Construction of Lusail Plaza Towers.
- **Client:** Qatari Diar Real Estate Investment Company.
- **Consultant:** Dar Al-Handasah.
- **Scope:** Structures, Drainage, & Infrastructure.

Roles & Responsibilities:
