## Computer & Communication Engineering

A dedicated and driven individual with a passion for excellence in network engineering field. I'm looking for a dynamic environment that fosters professional & personal growth, where I can use my experience and expertise to make a significant contribution to the company's success.

### Education

#### ● Master's degree in Computer & Communication Engineering

2021 [Lebanese International University](#) Lebanon

#### ● Bachelor in Telecom Engineering

2018 [Lebanese International University](#) Lebanon

### Certification

#### ● Cisco CCNA 200 - 301

2024 [Diploma](#) Validated

### Experience

#### ● Network operations center engineer

From July 2024 to December 2024 [Connect](#) Beirut, Lebanon

- Conducted real-time network surveillance, troubleshooting & problem resolution.
- Managed network traffic & capacity planning, ensuring efficient data flow & minimal downtime.
- Monitor network performance & troubleshoot network issues to ensure reliable & secure operations.
- Configured & managed ubiquiti, infinnet, cambium & LDF network equipment (Point-to-point, point-to-multipoint)
- Worked with microtik routerboard devices (VLAN, DNS, IP services, PPPoE, wifi, router...)
- Perform basic network configuration tasks such as VLAN setup, VRF selection & IP addressing for newly installed customer networks.
- Collaborate with senior network engineers & IT staff to solve complex network problems.
- Participate in on-call rotation to ensure 24/7 network support.

#### ● Network engineer - Internship

From May 2024 to June 2024 [BMB group](#) Beirut, Lebanon

I worked on packet tracer: Configuration router/Switch

- IPv4 protocols
- Telnet/Secure Shell (SSH)
- Trunk VLAN /Router on a stick, port security, EtherChannel, spanning tree, static routing, dynamic routing (EIGRP, OSPF)
- Standard/Extend ACL
- Domain Name System (DNS), Dynamic Host Configuration Protocol (DHCP)
- Site-to-site VPN/GRE over IPsec/DMVPN

#### ● IT technical support - Internship

From February 2024 to April 2024 [Hotel Dieu de France](#) Beirut, Lebanon

- Check & fix problem receiving on jira software: Printer ports lpd.lpr
- Check vlan/configuration on switch router via putty
- Configuration cisco IP phone using cisco cm administration
- Crimp RJ-45 cable

#### ● Network operations center engineer

From September 2022 to August 2023 [IPT Powertech](#) Lebanon

- Receiving and checking the tickets on the CRM tools: alarms on site Alfa, MTC
- Sending works orders to the O&M on CRM tools to fix these tickets on site (low DC, generator fails, fire alarm mains alarm ...)

#### ● Engineer Assistant

From September 2019 to December 2019 [IPT powertech](#) Lebanon

- Checking the progress of the fiber optics cables on the worksites
- Work with technician teams
- Supervision of the different projects

## Experience

### ● Engineer Assistant

From April 2018 to December 2018 [Ogero Telecom](#) Lebanon

- Checking the progress of the connections (DSL and fiber optics cables)
- Observation of the team of technicians
- Supervision with the manager in charge of the work

### ● Part time accounting assistant

From 2015 to 2021 [Total gas station](#) Lebanon

- Providers' relationship (gas, product, services)
- Accounting (bank payment, bills, orders, turnover...)
- Team management

## Skills

### CCNA

Cisco products systems, IPV4/IPV6, VLAN, STP, OSPF,EIGRP, security protocols, SSH, telnet, site-to-site VPN, GRE over IPsec

### Computer

Software: General skills, extensive work in Microsoft Office, EXCEL, JAVA, HTML, CSS
