ABOUT ME

I am a punctual and motivated individual who is able work in a busy environment and produce high standards of work. I am an excellent team worker and I am able take instructions from all levels and build up good working relationships with all colleagues. I am flexible, reliable and possess excellent time keeping skills.

OBJECTIVE

Seeking a challenging position in the civil draftsman, architectural, rebar detailing, road work and earthwork Industry with a reputed organization, in a challenging and stimulating environment where my experience and talents can be utilized to contribute towards the achievement of organizational objective and where there is potential for career growth and long-term professional advancement.

PROJECT

First Gulf Company

PROJECTS: -

- ❖ Diriyah Square Package-2 Super Basement (Riyadh)

MUHAMMAD ABU BAKR

Civil DRAFTSMAN

SUMMARY

Years of Experience: With 10 years of experience, I have accumulated a deep understanding of various aspects of civil and Infrastructure engineering.

Diverse Expertise: I have experience spans across civil work, architectural detailing, reinforced detailing, roads, and earthwork showcasing a broad understanding of different aspects of construction projects.

Project Scope: I have been involved in a wide range of projects, STC networking utilities ABHA region , Internal roads in Raqayab -2 (Ajman) Internal roads in Slama (Umm-al-Quawin ,Diriyah Gate Super Basement package-2, Multi-story residential, commercial buildings, Bridges, Underpass Utilities Bridges and Culverts. This demonstrates your versatility in tackling different types of construction challenges.

Technical Skills: I have the ability to read and interpret structural, architectural and Earth work drawings is a crucial skill. Moreover, my proficiency in creating error-free placing drawings and handling processes up to PDF and Electronic Takeoff showcases my technical prowess.

Drawing Variety: I have experience in producing various types of drawings, including general arrangement drawings, reinforcement detailing, Earthwork and Road drawings for diverse elements like slabs, beams, columns, stairs, piles, shear walls, ramp walls, Abutment Pier cap, services manholes, trenches, road layout, profile, sections and earth work section and profile

Communication and Teamwork: I have excellent communication skills and coordination abilities that allow me to work seamlessly with team members, whether they are engineers, architects, contractors, or consultants.

EXPERIENCE

(4TH AUG 2024 TILL TO DAY)

CIVIL 3D INFRASTRUCTURE DRAFTMAN

FIRST GULF COMPANY

PROJECT: - HW1 SHURA ISLAND

CLIENT: - RED SEA GLOBAL

- Develop detailed 2D and 3D CAD drawings for civil infrastructure, including roads, drainage systems, water supply, sewage, and electrical networks.
- Ensure all designs and drafts comply with local and international engineering and environmental standards.
- Analyze project sites to incorporate topographical data into drafts and document existing infrastructure accurately.
- Prepare shallow services, chiller pipe and update as-built drawings post-construction to ensure accurate recordkeeping for the project.
- Make profile for potable water and chiller pipe.

(20TH SEPTEMBER 2022 TO 30TH AUG 2024)

CIVIL 3D INFRASTRUCTURE DRAFTSMAN

FIRST GULF COMPANY

CONSULTANT: - AECOM

CLIENT: - JLL

LOCATION: - RIYADH DIRIYAH

First Gulf Company

PROJECTS: -

- ❖ Red Sea Shura Island HW1 & HE1.

- Preparing detailed technical drawings, blueprints, and plans for building projects, including structural layouts, electrical systems, plumbing, and HVAC.
- Creating floor plans, elevations, and sectional views using CAD software.
- Coordinating with engineers and architects to finalize dimensions, materials, and technical specifications.
- Working closely with civil engineers, project managers, and construction teams to provide design inputs and updates.
- Integrating survey and geotechnical data into building plans.
- Maintaining a comprehensive record of drafts, updates, and final blueprints for future reference.
- Revising drawings based on feedback from stakeholders, engineers, and architects.
- Preparing as-built drawings to document completed building projects.
- Proficiency in software like AutoCAD, Revit, SketchUp, or other tools for building design.
- Prepare coordinate drawings (UTM-WGS84, 36 NORTH, highlights your technical proficiency in accurately placing structural elements within the project's geographic context.
- coordination with various departments such as QS, MEP, QA/QC, and Planning, as well as involvement with the site to ensure smooth execution.

COMATEC SAUDI ARABIA LIMITED

PROJECT: -

- ❖ STC FIBER & COPPER (Aseer Region)

(1ST JULY 2021 – 30 DECEMBER 2023)

CIVIL 3D DRAFTSMAN & DATA SUPERVISER

COMATEC SAUDI ARABIA LIMITED

CLIENT STC

- Controlling & Locating drawing of house fiber TB & FDT
- Proficient in preparation of Topographic
- Assigns and monitor survey work and providing input for evaluation of members of field survey staff.
- Prepare utilities drawing of networking fiber & copper cables
- Prepare drawings of MANHOLE diversion of cables for distribution
- Supervise Data Special Circuits on fiber, copper, transmission, UPE3 and UPE9 ,UPE52 , technologies installation and maintenance
