INFRASTRUCTURE ENGINEER

Civil Engineer specialized in wastewater infrastructure and pumping stations, with over 6 years of experience in the design, management, and implementation of wastewater projects. Skilled in working with multidisciplinary teams to ensure quality and safety, with a strong knowledge of the latest technologies and international standards in the field. Committed to delivering results that exceed expectations and drive environmental and economic benefits for clients and communities.

SKILLS

Technical Skills:
AutoCAD
Primavira
Microsoft Office

Technical Expertise: Wastewater
flow calculations, wastewater
network and pumping station
design, environmental data analysis.

Personal Skills: Team
management, working under
pressure, problem-solving,
effective communication.

WORK HISTORY

Samaha sons

July 2021 - Present

Senior Infrastructure Site Engineer

- Designed and implemented a wastewater network in the village of Moussa Mizar, with a total length of 11 kilometers, following local and international standards.
- Coordinated with teams and safety specialists to ensure efficient and safe operations throughout the project.
- Executed a wastewater pumping station in the village of Moussa Mizar, with a diameter of 6 meters.

- Executed a wastewater pumping station in the village of El-Mashrek Qebly, with a diameter of 14 meters.
- Executed a wastewater pumping station in the village of Al-Rawashdiyya, with a diameter of 6 meters.

Site Engineer in the Engineering Division in Army-in Command

Site Engineer

June 2020 - June 2021

- Carried out "soldiers , Offices, warehouses, bakery, Steel Structure .

Site Engineer in atlas for Construction and Trading Company

- Executed wastewater networks, pumping stations, and force main pipelines. **July 2019 -May 2020**

Site Engineer in emaar masr

- Executed canal and drain lining with concrete.

July 2018 - June 2019

EDUCATION

Bachelor of Civil Engineering | Oct 2014 | Jul 2019

- At International Academy for engineering and media science

Graduated with a "Good" grade

Graduation project "Construction Project Management" with grade "Excellent"

- Supervise items from the contractors and hand over items to the consultant.
- Good knowledge of Construction and Managing the work.
- Measure and value the work done on-site.
- Able to perform any structural item.
- Analyzing and classification for the Soil Profile.
- Making shop drawing for items of BOQ

LANGUAGES

- Arabic Native
- Fluent in English

ACHIEVEMENTS

- Successfully managed multiple sites within tight deadlines.
- The leader of a group that contained 2 officers and 4 soldiers while serving in military.
- A certification of Expertise from the engineering division of Second Army Command.
- Involved in charity work during college.
- A certification of Merit for serving in the army.

COURSES

- IPMA certification
- Bim sewage water
- Planning
