🛖 Passport No: DF0978781

PROFILE

With 10 years of expertise in civil engineering, I specialize in Quality Assurance and Quality Control for both vertical and horizontal construction, including high-rise buildings, roads, bridges, and earthworks. My experience spans executing and auditing large-scale projects, including Pro-Engineered and Pre-Fabricated buildings, ensuring compliance with international standards such as ACI, ASTM, and AASHTO. I have a proven track record in developing and implementing robust QA/QC frameworks within complex construction and corporate environments. I bring precision, efficiency, and a commitment to excellence in every project I undertake.

EDUCATION

Masters of Engineering in Construction Management, 2017 – 2020 | Jamshoro, Pakistan
Mehran University of Engineering and Technology

Bachelor of Engineering in Civil Engineering, 2011 – 2014 | Nawabshah, Pakistan
Quaid-E-Awam University of Engineering Science and Technology

CERTIFICATIONS

Pakistan Engineering Council: Registered With Pakistan Engineering Council As a Title of Registered Engineer Civil (RE - Civil). Pakistan Engineering Council Registration No. **Civil/40084**

Diploma of Information Technology (DIT)

AutoCAD 2D, 3D

Primavera P6

Lean Six Sigma White Belt

OSHA

PROFESSIONAL EXPERIENCE

Experience - 1

January 2023 – December 2024

Position: QA/QC Engineer Civil,

Location: Magna, Tabuk,

Employer: Al Rawaf Contracting Company

Kingdom of Saudi Arabia

Responsibilities:

- Organized, implemented, and managed the Quality Management System in alignment with company policies, contract specifications, and ISO 9001 standards.
- Conducted thorough reviews of Material Technical Data Sheets to ensure compliance with project requirements and specifications.
- Prepared comprehensive method statements for site activities, ensuring submission and approval prior to commencement of work.
- Performed daily inspections and tests to verify that construction activities met the required quality standards as outlined in drawings and specifications.
- Identified, documented, and managed non-conformances, implementing corrective actions to prevent recurrence and ensure project quality.
- Maintained comprehensive QA/QC documentation, including certificates, calibration records, test results, inspection requests, and non-compliance reports.
- Collaborated effectively with construction teams, subcontractors, and suppliers to ensure adherence to quality standards and timely resolution of quality issues.
- Provided guidance and training to site personnel on quality standards, procedures, and best practices to foster a culture of continuous improvement.
- Participated in internal and external audits, ensuring compliance with the Quality Management System and facilitating continuous improvement initiatives.
- Served as the primary point of contact for client representatives on all quality-related matters, ensuring clear communication and prompt resolution of concerns.
- Submitted inspection requests to consultants and ensured that all site activities were inspected and approved before proceeding to subsequent stages.
- Developed and implemented quality control procedures to ensure that all project activities complied with the required standards and specifications.
- Verified that contractor quality requirements were specified to vendors and reviewed supplier quality plans against contract requirements.

Experience - 2

August 2021 – December 2022

Position: QA/QC Engineer Civil,

Location: Damam,

Employer: Khalid Mueid Al Zahrani Contracting Co

Kingdom of Saudi Arabia

Responsibilities:

- Perform inspections of construction activities to ensure compliance with project specifications, codes, and quality standards.
- Verify the quality of construction materials by conducting tests and reviewing certificates.
- Monitor on-site construction work to ensure adherence to approved procedures and safety regulations.
- Check and interpret engineering drawings, specifications, and standards to confirm compliance.
- Identify defects, deviations, and non-conformities, and issue reports for corrective actions.
- Conduct field and laboratory tests for soil, concrete, asphalt, and other construction materials.
- Maintain accurate records of inspections, test results, and quality control reports.
- Collaborate with project engineers, contractors, and consultants to resolve quality issues.
- Ensure that construction activities meet quality requirements and workmanship standards.
- Verify construction work complies with local building codes, industry regulations, and contractual requirements.
- Recommend corrective and preventive measures to improve quality and avoid defects.
- Participate in internal and external quality audits to assess project compliance.

- Educate construction teams on quality standards, best practices, and compliance requirements.
- Conduct final inspections, prepare punch lists, and ensure defects are rectified before project handover.
- Identify safety hazards related to quality issues and report them to management for corrective actions.
- Ensure proper curing and protection of concrete structures to maintain durability and strength.
- Witness and verify third-party testing of construction materials and structural components.
- Conduct surveillance checks to ensure continuous compliance with quality control procedures.
- Assist in reviewing method statements and inspection test plans (ITPs) before implementation.
- Ensure proper documentation and traceability of all quality records for future reference and audits.

Experience - 3

Position: QA/QC Engineer Civil,

Employer: Saudi Averda International

December 2018 – May 2021

Location: Umluj, Redsea, Tabuk,

Kingdom of Saudi Arabia

Responsibilities:

- Coordinated all inspections, monitor the required tests and record inspections and tests made as per the Contract Plan and Contract Specifications.
- Preparation and Submissions of request for approval of materials (MAR/Material Submittal).
- Checked all activities as per Project Specifications or International Standards and Drawings.
- Prepared and performed Material Inspection Requests (MIR) for newly coming materials to the site.
- Checking, and approving/closing the WIRs.
- Conducted inspections on sites as per the submitted WIRs.
- Provided technical support to the QC Manager & guidance to the site staff in submission of Material Submittal, Request for Inspection, PQD of any 3rd Party or Material Supplier, Shop Drawings, As-built Drawings etc.
- Daily coordinated with all 3rd party laboratories for any tests or inspections.
- Performed trail mixes of concrete batching plants with client and consultants.
- Assisted QA/QC Supervisor and Manager in conducting internal quality audits.
- Organized, implemented, conducted and managed the QA/QC Programs as per the Company's Quality Policy.
- Followed and closed site observation reports (SORs) raised from the consultant or client side.

Experience - 4

Position: QA/QC Inspector Civil,

Employer: Sachal Engineering Works Pvt Ltd

January 2015 – November 2018

Location: Jamshoro, Pakistan

- Conducted inspections and quality checks for civil construction activities, ensuring compliance with project specifications and industry standards.
- Monitored and verified construction processes, including excavation, foundation works, concrete pouring, and structural steel installations.
- Reviewed project drawings, specifications, and method statements to ensure proper execution of work.
- Conducted material inspections to confirm compliance with approved submittals and project requirements.
- Coordinated with site engineers, subcontractors, and quality teams to address non-conformance issues and corrective actions.
- Maintained and updated quality control records, inspection reports, and test results.
- Ensured proper implementation of quality control plans, inspection test plans (ITPs), and checklists.

- Participated in internal and external audits to ensure adherence to quality management system (QMS) requirements.
- Assisted in concrete sampling, slump tests, and cube tests for strength verification.
- Ensured adherence to safety regulations and best construction practices at the site.

PROJECTS

Project - 1

TO WHOM IT MAY CONCERN

This is to certify that **MR. Ghulam Murtaza** bearing Passport Number. **DF0978781** has been performed his duties as **QA/QC Engineer Civil** in Red Sea Global Project, Umluj Construction of Waste Management Phase – I And Phase – II Plants, from December – 2018 To July – 2021

He has proved himself extremely hardworking, honest and very sincere to his job. He has been able to complete the assigned tasks well within the given period. He is very decent and greatly responsible, who earned respect through dedication.

We wish him every success in his life. He may prove to be an asset to any of his future organization.

Yours faithfully,

Hashem Itani
Delivery Director

Date: 04 - Dec - 2018

EXPERIENCE CERTIFICATE

This is to certify that **MR. Ghulam Murtaza** bearing **CNIC No. 44204-6473878-3** has worked in our organization as a **QA/QC Inspector Civil** from 15 Jan – 2015 To 30 Nov – 2018.

He has demonstrated during his time on the project that he has the ability to work diligent at tasks assigned to him. He is also very competent and familiar with International QC standards

He is very confident and carry out his tasks in a very professional and courteous manner Probably his best skill is diligence and he have ability to work under pressure and complete large amounts of work on a consistent basis.

He is also highly motivated and driven. He made a significant contribution from the beginning of the project to until commissioning of the project and ensured that the foundation of the QC Management System was very well laid. He also had a very good relationship with his colleagues and co-workers and was repeated by all members in the organization, I would highly recommend **MR. Ghulam Murtaza** for future employment and would gladly welcome him back in my organization if the opportunity presents itself. He is a great asset and will add a lot of value to any future organization.
