# WESAM SLEHAT

## CIVI ENGINEERING

### ABOUT ME

A civil engineer with appropriate skills to work in safe and sound public construction projects. Skilled in coordinating with construction and engineering specialists at every stage of the project. I have the ability to learn anything new multitasking with an exceptional ability to work well in a high-pressure work environment.

### EXPERIENCE

#### Orbits Engineering Firm

Civil Engineering Oct / 2024 - Present

- **Urban assessment of some areas in the Saudi city of Umluj**

Field visit to the areas and learn about the nature of the buildings in the areas concerned to prepare a detailed report to facilitate calculating the costs of the removal project.

- **Traffic intersection evaluation in Tabuk city**

Visit the site for 3 days and start the process of monitoring vehicles to know the peak hour and calculate the time for each signal Solution suggestions after using Synchro software

- **Suggested public transport routes for Tabuk city**

Suggest several routes and draw them on Google Earth. Propose an alternative route that covers areas not reached by the current route.

Drawing path sections on AutoCAD

- **Makkah Al-Mukarramah Roads Evaluation**

Monitoring of road defects to calculate the Pavement Condition Index (PCI).

Using Beaver software to calculate PCI

Working on the Xenomatix device

Xenomatix device data processing

Upload data after processing on Qgis program

#### Awrtani Contracting

site engineer & calculate quantities Jul - Aug / 2024

- **Residential building Project duration 2 months**

Follow up the drilling process, calculate quantities, prepare site reports, provide technical advice and resolve technical issues that arise during construction, ensure that construction industry safety regulations are followed, collaborate with other construction project stakeholders as required, supervise on-site construction work and relay instructions from senior project managers, receive and implement works according to the plan.

### EDUCATION

#### Bachelor of Civil Engineering

University of Jordan 2019-2024

### SKILLS

- Reading engineering plans
- Microsoft Office
- Computer Skills
- AutoCAD
- Calculate quantities of concrete and Brick
- Computer Proficiency
- multi-tasker
- Construction reporting
- pavement condition index Calculate (PCI)
- Work under pressur
- Teamwork
- Work on device Xenomatix
- Communication
- Time management
- Organization
- Technical skills
- Creativity
- Research

### LANGUAGES

- Arabic (Fluent)
- English (Intermediate)
