Professional Summary

Save Human Lives, Property, Time & Environment, Enhance Business Efficiency.

I have a cumulative more than Five (5+) years of working with diverse & versatile experience with Civil Construction, Roads, High Rise Building & Infrastructure Pipeline projects in KSA.

I am a critical thinker with an eye for detail, well organized, goal-oriented, and highly skilled safety professional. My key responsibilities are planning, managing, monitoring, and coordinating health and safety in the pre-construction and construction phase of a project, including identifying, eliminating, or controlling foreseeable risks.

Work History

Oct 2022 – Nov 2024

HSE OFFICER

Hessah & Dorrah General Contracting & Maintenance Co. - WEST OF MADINA, SAUDI ARABIA

- Implementation of HSE Program and project operational control procedure, internal HSE standards and client safety requirements
- Monitor the site for environmental risks (e.g. spills, air pollution) and take necessary actions.
- Conduct drills and educate workers by giving them safety orientation, safety talk.
- Daily safety and health concerns on site, making them aware of all potential hazards in their workplace.
- Attend HSE walkthroughs and SLTs with Client, Consultant and Authorities.
- Identify unsafe working conditions, investigate incidents, and implement corrective measures.
- Ensuring that workers are trained on the correct use of personal protective equipment (PPE), emergency procedures, fire extinguishers, first-aid kits and safe work practices.
- Ensuring that work permits are issued for hazardous tasks like hot works, confined space entry, working at heights, etc.
- Ensuring that emergency equipment (fire extinguishers, first aid kits, emergency exits) is in good condition and accessible.
- Regular inspection of welfare areas at site.
- Regular inspection of heavy equipment's, heavy vehicles and light vehicles.
- Regular inspection of electrical DPs, diesel generators and tower lights.
- Verifying and approve permits, ensuring that safety measures and controls are in place before work begins.
- Maintaining accurate records of all issued permits, checklists, toolbox talk, on job trainings and related safety activities for audits and

compliance checks.

- Ensuring that all lifting equipment (cranes, hoists, slings, shackles, etc.) is inspected and certified to be in safe working condition before use.
- Ensuring that crane operators, riggers, and other personnel involved in the lifting operation are properly trained and certified.
- Promote a positive culture of safety through effective communication and feedback.
- Instruct workers on the proper use of equipment, emergency procedures, and other safety protocols.
- Maintain equipment's, PPEs, violation, permit and daily observations log.
- Identify and assess hazards, risks and control measures for a specific activity.

Sep 2020 – June 2022

HSE OFFICER

LB Lois Builders KSA - JUBAIL, SAUDI ARABIA

- Taking proactive measures against the nature of work, including participating in minutes of meetings and site visits.
- Daily safety and health concerns on site. Make them aware of all potential hazards in their workplace.
- Facilitates and records daily toolbox meeting, accident and incident reports in compliance on the safety rules and regulations.
- Prepare weekly and monthly reports in compliance with local regulations.
- Prepare requisition of all personnel protective equipment and other safety accessories needed by the workers and as for company's compliance on safety and health regulations.
- Inspection of safety sign boards and warning tape to avoid accident.
- Inspection of necessary work permits, prior to beginning of any activities at site, necessary work permit.
- Check color code for each tool and equipment.
- Check the all equipment's and vehicles according to safety standard.
- Regular inspection of hand tools and other equipment's.
- Handle industrial hygiene, equipment protection, machine guarding and other health and safety programs.
- Regular inspection of welfare areas at site. Ensuring that all equipment is properly maintained and has valid certifications as per Saudi regulations and international standards.
