LinkedIn ID: - syed-sayeed-042ss

PERSONAL DETAILS

Date of Birth: 3rd December 2002

Nationality: Indian

Marital Status: Unmarried

Address: Karimnagar – 505001. Telangana.

PASSPORT DETAILS

Passport No.: X-6427795

Date of Issue: 16/02/2023

Date of Expiry: 15/02/2033

EDUCATION

Bachelor of Engineering (Civil)

- Vivekananda Institute of technology science, Karimnagar, Telangana, India.
- Year of Graduation: 2023 (72%)

Diploma in Civil Engineering.

- SRRS Govt polytechnic, Agraharam Sircilla, Telangana, India
- Year of Completion: 2020 (89% grade)

PROFESSIONAL SUMMERY

A dedicated Civil Engineer with 4 years of experience in the construction of residential buildings, successfully completing 15 projects with a focus on quality and timely delivery. Specialized in Building Information Modeling (BIM) with advanced training in BIM for civil engineers, proficient in using Revit, AutoCAD, Civil 3D, Navisworks, and Infracore. Gained hands-on experience during a 2-month internship in designing and modeling a metro station, applying BIM methodologies to ensure coordination, accuracy, and efficiency. Skilled in implementing ISO 19650 standards for BIM processes, ensuring compliance in project information management and delivery. Experienced in maintaining quality assurance through ISO 9001 standards and fostering safe construction practices in alignment with ISO 45001. Adept at integrating technology to optimize workflows, resolve design conflicts, and enhance sustainability in construction projects. Committed to driving innovation and collaboration to deliver high-quality infrastructure solutions.

OBJECTIVE

To contribute as a BIM Engineer by leveraging my civil engineering background and BIM training to deliver precise and efficient designs compliant with ISO 19650 standards. With hands-on experience from a two-month internship on complex infrastructure projects, I specialize in coordination, clash detection, and multidisciplinary integration. Proficient in 3D modeling and data management, I aim to optimize workflows while ensuring adherence to ISO 9001 and ISO 45001 standards. My goal is to enhance project efficiency, support sustainable practices, and deliver innovative solutions through collaboration with cross-functional teams

EXPERIENCE

BIM Engineer

*Sinan Construction, Karimnagar, Telangana, India.
(Jul 2024 - Dec 2024)*

- Developed 3D BIM models using Revit, AutoCAD, and Civil 3D, integrating architectural, structural, and MEP components while resolving design conflicts.
- Performed clash detection with Navisworks to identify and resolve system conflicts before construction.
- Managed project documentation, including drawings and schedules, ensuring compliance with ISO 19650 standards.
- Created 4D models to integrate construction schedules, optimize timelines, and allocate resources effectively.
- Facilitated collaboration between contractors and clients, ensuring seamless communication and informed decision-making using BIM tools.

Civil Site Engineer.

*Sinan Construction, Karimnagar, Telangana, India.
(Jan 2023 - Jun 2024)*

- **Site Supervision:** Used to oversee the daily construction activities and to ensure work aligns with design, quality, and safety standards.
- **Resource Management:** Manage labor, materials, and equipment to maintain efficiency and minimize delays.
- **Quality Assurance:** Used to monitor construction quality to ensure compliance with specifications and standards.
- **Progress Reporting:** Track project milestones and provide regular updates to stakeholders.
- **Safety Enforcement:** Used to implement and enforce safety protocols to prevent workplace accidents.

SKILLS

- Modelling
- Project Execution
- BIM workflows
- Creativity
- Logical Thinking
- Documentation and Presentation
- Coordination
- Collaboration
- Process Improvement/Optimization
- Project Quality Management
- Root Cause Analysis
- Inspection and Testing
- Risk Management
- Strategic initiatives/Leadership
- Time Management
- Business Email Communication
- Adaptability to new technologies

TECHNICAL COMPETENCY

- AutoCAD
- REVIT Structures
- CIVIL 3D
- Navis Works
- Infra Works
- ETABS
- BIM Track
- BIM 360
- MS Word
- MS Excell

LANGUAGES

- English
- Hindi
- Telugu
- Urdu

Civil Site Engineer.

*Sinan Construction, Karimnagar, Telangana, India.
(Jan 2023 - Jun 2024)*

- **Site Supervision:** Used to oversee the daily construction activities and to ensure work aligns with design, quality, and safety standards.
- **Resource Management:** Manage labor, materials, and equipment to maintain efficiency and minimize delays.
- **Quality Assurance:** Used to monitor construction quality to ensure compliance with specifications and standards.
- **Progress Reporting:** Track project milestones and provide regular updates to stakeholders.
- **Safety Enforcement:** Used to implement and enforce safety protocols to prevent workplace accidents.

Civil Site Supervisor

*Imaarat Construction, Karimnagar, Telangana, India.
(Jun 2020 - Dec 2022)*

- **Task Scheduling:** Used to plan and organize daily work schedules for site activities to ensure smooth operations.
- **Equipment Supervision:** Ensure and used to allow proper use and maintenance of construction tools and machinery.
- **Communication Liaison:** Acted as a link between site workers and project engineers or managers for clear instructions.
- **Problem Resolution:** Addressed several on-site issues promptly, such as worker disputes or technical challenges.
- **Compliance Monitoring:** Ensure all construction practices comply with local regulations and project guidelines

ACHIEVEMENTS

- Achieved the Best Trainer Award during a 6-month training program in the Roads & Buildings (R&B) Department, focusing on flexible and rigid pavements as well as the construction of 2BHK residential buildings
- Received the Best Teacher Award for three consecutive years on Teachers' Day during school as a student.

TRAININGS

- Completed the BIM for CIVIL ENGINEERS training program conducted by Novatr, acquiring expertise in BIM software's
- Successfully completed the AutoCAD for Civil engineers training program conducted by InternStudios, enhancing high Proficiency in Design and Modelling

PROJECTS

Completed a 2-month internship on the Jakarta Metro Rail Project, covering the route from Senayan to Vancouver. Involved in 3D modeling, detailing of elements, and preparation of schedules and plans using BIM software such as Revit, Civil 3D, AutoCAD, and others.

Renovated and constructed the Educare School of Excellence, with a student capacity of 600.

CERTIFICATIONS

1. BIM Professional Course for Civil Engineers

- Certified by: Novatr
- Certification Type: Professional Certification
- Course Description: Successfully completed a comprehensive BIM Professional Course tailored for civil engineers. This course covered advanced BIM processes, tools, and techniques for infrastructure and building projects, focusing on industry standards and practical applications.

2. International Verified Autodesk Certificates

- Certified by: Autodesk
- Certification Type: REVIT, CIVIL 3D, Navisworks Manage 2024
- Course Description: Awarded internationally verified certifications for proficiency in Revit, Civil 3D, and Navisworks Manage 2024. These certifications validate expertise in modeling, design, and coordination workflows essential for modern BIM practices.

3. NCDS certificate.

- Certified by: Autodesk
- Certification Type: REVIT, CIVIL 3D, Navisworks Manage 2024
- Course Description: Awarded internationally verified certifications for proficiency in Revit, Civil 3D, and Navisworks Manage 2024. These certifications validate expertise in modeling, design, and coordination workflows essential for modern BIM practices.

4. Best trainer award.

- Awarded by: Roads & Buildings (R&B) Department
- Description: Recognized as the Best Trainer during a 6-month industrial training program in the R&B Department. Delivered impactful sessions on flexible and rigid pavements and 2BHK residential building construction

Dear Hiring Manager,

I am excited to apply for the position of BIM Engineer at your Company. With a Bachelor's degree in Civil Engineering and over four years of experience in residential construction, I bring hands-on expertise in delivering 15 successful projects with a focus on quality and compliance. My advanced training in BIM for Civil Engineers, combined with certifications in Revit, Civil 3D, Navisworks Manage 2024, and BIM 360, equips me with the technical proficiency needed to handle complex infrastructure projects. During my internship on the Jakarta Metro Rail Project, I gained valuable experience in 3D modeling, clash detection, and BIM-based scheduling, ensuring precision and efficiency. I am skilled in aligning workflows with ISO 19650, ISO 9001, and ISO 45001 standards, ensuring seamless project delivery and stakeholder satisfaction. Recognized as the Best Trainer by the Roads & Buildings Department, I excel in fostering collaboration, optimizing processes, and driving innovation. I am eager to bring my skills to your team and contribute to the success of your projects.

Sincerely,

Syed Sayeed
