

Laith Abusafieh

Civil Engineer

Address: Al Riyadh-SA

Phone: +966 596766662 - **Email:** laithmst1@gmail.com - **Nationality:** Jordanian

Professional Summary

Results-driven Civil Engineer with extensive experience in managing construction projects from conception to completion. Adept at structural analysis, project planning, and quality assurance, with a strong background in AutoCAD and construction methodologies. Proven ability to lead teams, optimize resources, and ensure compliance with safety and quality regulations. I am seeking to contribute my expertise to a dynamic construction firm.

Professional Experience

Civil Engineer – Riyadh

Aug 2024 – Present

- **Diriya Gate Project**

The Diriyah Project showcases the rich culture and deep-rooted Najdi heritage and seeks to preserve the authentic Saudi culture while providing innovative and advanced experiences.

- Developed and reviewed construction plans and schematics using AutoCAD.
- Supervised on-site construction activities, ensuring adherence to project specifications and safety standards.
- Conducted site inspections to assess progress, compliance, and quality of work.
- Prepared and managed technical method statements for construction activities.
- Performed material testing to evaluate strength and durability, ensuring compliance with engineering standards.
- Collaborated with project stakeholders, including architects, contractors, and regulatory bodies.
- Coordinated procurement and requisition of materials, ensuring quality and cost-effectiveness.
- Ensured all required permits and approvals were secured before project initiation.

Civil Engineer – Doha

Feb 2021 – Jul 2024

- **AL JANOUB STADIUM**
- **974 STADIUM**
