## About Me.

I am a project manager with 19 years of experience in overseeing and executing complex projects. I excel at interpreting and understanding key project elements to identify potential issues early and implement corrective actions. With strong expertise in technical aspects, procurement, and quality control, I effectively execute project plans to achieve strategic goals. I have a proven track record in stakeholder management, project planning, and KPI delivery, with a deep understanding of business drivers and financial reporting standards. My knowledge of client contracts allows me to oversee and manage projects with precision and efficiency.
