PROFESSIONAL SUMMARY

SCE-accredited Telecommunications Engineer | PMP-Certified | NEOM-Approved Telecom QC Engineer

Results-driven telecommunications quality control and project management specialist with extensive experience, currently contributing to NEOM's groundbreaking projects. Expertise spans end-to-end telecom infrastructure inspection, including fiber optics, structured cabling systems, and active network components, with rigorous adherence to NEOM, NEOM LPFS/ETSD, ISO 27001, and Saudi regulatory standards.

As a quality assurance leader, excels in managing material submittals, conducting technical inspections, and maintaining comprehensive documentation through Aconex and Autodesk BIM 360. Proven track record in deploying VoIP systems, CCTV networks, and enterprise telecom solutions, ensuring compliance and operational excellence.

Combines technical proficiency with strategic project management (PMP) to drive complex telecom initiatives, ensuring alignment with NEOM's vision and organizational objectives. Adept at stakeholder coordination, compliance management, and delivering high-impact telecom solutions in large-scale environments.

SKILLS

Telecom Systems:

- 3CX, Huawei, Avaya, Grandstream, yealink, D-link

Documentation Platforms:

- Aconex, Autodesk BIM 360

QA/QC Documentation:

- Redline & As-Built Drawings, SOPs, MIRs, WIRs

Compliance Standards:

- NEOM LPFS & ETSD, ISO/IEC 27001

Call Center Infrastructure:

- PABX, IP Telephony, CRM Integration

System Administration:

- Windows OS, Linux (Basic Operations)

Networking:

- VLANs, QoS, Patch Panel Labeling, Switch Configuration

Security:

- Endpoint Controls, BCP, IAR, DR Plan
- IS Policies & Procedures, Risk Register
- IS Governance, Risk Management

Software & Tools:

- MS Office

Technical Knowledge:

- Strong expertise in ICT, ELV (Access Control, PA, CCTV), and Telecom Systems
- Experience in IT Procurement Quality Control & Material Inspections

Soft Skills & Business Acumen:

- Communication & Presentation
- Pre-Sales Client Management
- Budget and Cost Control
- Business Laws

Education and Qualifications

Masters of Business Administration

Karachi School of Business & Leadership, KARACHI

Sep 2020 - Dec 2022

BS Telecommunications Engineering

Sir Syed University of Engineering & Technology, KARACHI

Jan 2015 - Jan 2019

HSC

Commecs College, KARACHI

Aug 2012 - Jul 2014

O LEVELS

Falcon House Grammar School

Aug 2010 - May 2012

Work experience

NEOM Approved Telecom QC Engineer

Dec 2023 - Present

Tamimi Global, NEOM

• **Quality Control & Inspection:**

- Conduct comprehensive quality inspections for fiber optic networks (SM/MM) and structured cabling (Cat-5/6A) per NEOM LPFS standards
- Witness OTDR testing for fiber links and Fluke testing for copper cabling to validate TIA/EIA-568 performance
- Verify installation quality of active equipment including Huawei FEC switches and Cisco routers.

• **Documentation & Compliance:**

- Prepare and manage Inspection and Test Plans (ITPs) for ICT systems in compliance with NEOM ETSD
- Maintain Material Inspection Reports (MIRs) and Work Inspection Requests (WIRs) via Aconex
- Ensure accurate as-built documentation in BIM 360 for all telecom infrastructure
- Implement strict control over document versioning and archival, in compliance with ISO standards and NEOM document management procedures.
- Supervise the preparation of telecom technical submittals (materials, shop drawings, method statements), ensuring alignment with project specifications, Schedule Q, and client requirements.
- Support internal audits and external inspections by preparing compliance reports, test logs, and QA/QC dossiers for client and consultant review.
- Verify the compliance of all ICT installations and components against BOQ, IFC drawings, and project specifications, initiating corrective actions when deviations are observed.
- Develop and manage Checklists, NCRs (Non-Conformance Reports), and RFIs (Requests for Information) related to ICT/telecom scopes to support smooth site execution and documentation workflows.

• **Systems Validation:**

- Execute end-to-end testing of VoIP systems (3CX), focusing on QoS parameters
- Validate network security configurations including VLAN segmentation
- Test UPS backup systems for critical telecom equipment
- Ensure quality compliance for ELV systems, including Access Control, Public Address (PA) Systems, and CCTV installations, in line with project specifications.

• **Process & Standards:**

- Enforce NEOM labeling standards for patch panels and fiber trays
- Audit cable management practices in IDF/ODF rooms
- Conduct pre-installation QC meetings with subcontractors

ADC/CRM Support Engineer

Jun 2022 - Dec 2023

National Bank of Pakistan, Karachi

- Managed VOIP, CRM, and call center infrastructure for national operations.
- Conducted P2P testing and troubleshooting of routers/switches and coordinated with the IT infrastructure team to minimize downtime.
- Ensured information security compliance in line with organizational policies and ISO standards.
- Maintained detailed logs of telecom equipment, network issues, and support resolutions.
- Coordinated vendor/client communications, including scheduling inspections, handling SLAs, and supporting post-implementation queries.
- Supported planning and deployment of telecom solutions for new branch openings and modernization of legacy systems.
- Conducted quality inspections of installed telecom equipment and services, including fiber optics and IP telephony.
- Acted as a key liaison between business units and technical teams for telecom-related enhancements.
- Contributed to drafting project documentation such as method statements and risk assessments.

Telecom Field Engineer

May 2019 - May 2022

Telecard Limited, Karachi

- Supported CRM/web services and call center server infrastructure
- Monitored telecom QoS and conducted fiber/Cat-6 inspections.
- Administered telecom hardware/software installations and documented project activities.

- Conducted troubleshooting and maintenance of PABX and VoIP systems.
- Assisted with CRM integration and managed telecom ticketing support operations.
- Performed installation and inspection of fiber connectivity and routing across multiple sites.
- Collaborated with vendors and internal teams to resolve technical issues and support client implementations.
- Maintained accurate project records and assisted in preparing BOQs and inspection reports.
- Served as Resident Engineer for Habib Metropolitan Bank's VOIP services.
- Delivered remote and onsite support for telecom systems and infrastructure setups.
