PROFESSIONAL INTENT

I'm a motivated and ambitious individual with a passion for continuous learning. With a background in architecture, I have developed a strong foundation in Problem solving, Teamwork, Project management, Attention to detail. Over the years, I have honed the variety of skills that enable me to contribute to any projects. In my terms of professional goals, I am committed to expanding my knowledge and expertise in architecture.

With 1 year of experience in architecture, I have gained valuable insights into approach to problem solving and project management, and I am eager to apply these lessons in future opportunities.
