

MD NIZAMUDDIN ALI

CIVIL ENGINEER | CIVIL SUPERINTENDENT | PROJECT ENGINEER

+966 547899253 | nijamuddinali129@gmail.com | Iqama Status: Valid and Transferable | Address: Jubail Saudi Arabia

CAREER SUMMARY

Experienced and detail-oriented Civil Engineer with 9 years of proven expertise in the successful delivery of industrial, infrastructure, and oil & gas projects, including chemical plants, water treatment plants, pipelines, roads, bridges, and utility networks. Adept at managing both greenfield and brownfield projects with full accountability for construction supervision, site coordination, and quality assurance from concept through completion.

Strong background in project planning, execution, technical reviews, and cost control, with hands-on experience in structural and civil works including equipment foundations, manholes, duct banks, retaining walls, and deep excavations with shoring and dewatering. Skilled in the preparation and review of shop drawings, BOQs, BBS, method statements, and risk assessments.

Technically proficient in AutoCAD, Revit, STAAD Pro, Primavera P6, and MS Project. Known for excellent coordination with clients, consultants, and contractors, ensuring compliance with project specifications, safety regulations, and RC/Saudi Aramco standards. A proactive leader with strong problem-solving skills, a commitment to safety and quality, and a passion for delivering complex projects on time and within budget.

KEY COMPETENCIES

- Project Management
- Structural & Utility Works
- Technical Proficiency
- Subcontractor Coordination
- Regulatory Compliance
- Leadership & Mentorship
- Procurement Coordination
- Contract Negotiation & Management
- Construction Supervision
- Shop Drawing & As-Built Preparation
- Oil & Gas Expertise
- BOQ, BBS, Method Statements
- Problem-Solving
- AutoCAD, Revit, ETABS, SAP, STAAD Pro, Primavera P6
- Project Reporting & Documentation
- Site Inspections & Quality Control

PROFESSIONAL EXPERIENCE

Civil Superintendent

July 2024 – Present

GAS ARABIAN SERVICES – Jubail, Saudi Arabia

- Supervised construction activities to ensure on-time delivery, cost efficiency, and resource optimization.
- Monitored daily site operations with strict adherence to safety, quality, and project specifications.
- Reviewed and managed shop drawings, as-builts, BBS, BOQs, method statements, and technical documents.
- Coordinated with contractors, consultants, and stakeholders to resolve issues and maintain project flow.
- Enforced quality control and compliance with regulatory standards and permit requirements.
- Maintained accurate documentation and prepared progress reports and cost forecasts for management.

Project Engineer

Aug 2023 – Jun 2024

GAS ARABIAN SERVICES – Jubail, Saudi Arabia

- Planned and managed construction projects to ensure timely completion, cost control, and efficient resource use.
- Supervised daily site operations, maintaining compliance with safety, quality, and project specifications.
- Reviewed and prepared shop drawings, as-builts, BBS, BOQs, method statements, and technical documentation.
- Monitored progress, coordinated with stakeholders, and resolved construction issues proactively.
- Enforced strict quality control and ensured compliance with regulatory standards and permit requirements.

Technical Civil Engineer

Jan 2021 – July 2023

SEPCO ARABIA – Al-Khair Saudi Arabia

- Prepared, reviewed, and refined shop drawings, as-builts, red lines, BOQs, BBS, and method statements in line with project specifications.
- Resolved technical issues through RFIs and FCNs, ensuring alignment with design and construction requirements.
- Coordinated with design teams, consultants, and clients for technical approvals and material submittals.
- Provided engineering support to site teams, ensuring smooth execution and resolving on-site challenges.
- Ensured quality and compliance with project standards, maintaining accurate documentation and progress tracking.

Civil Site Engineer

Dec 2019 – Dec 2020

POWERCHINA JIANGXI HYDROPOWER ENGINEERING BUREAU CO.LTD. – Al-Khair Saudi Arabia

- Supervised daily site activities, ensuring compliance with project specs, safety standards, and Saudi Aramco quality protocols.
- Coordinated with consultants and subcontractors to resolve site issues and maintain workflow efficiency.
- Monitored progress, performed inspections, and applied corrective measures to stay on schedule and uphold quality.
- Prepared site reports, progress updates, and technical documentation for audits and tracking.
- Managed material procurement and verification against technical requirements.
- Enforced HSE standards through risk assessments and preventive safety measures.

Quantity Surveyor

Sep2018-Dec2019

RABINA CONSTRUCTION PVT LTD – Kathmandu, Nepal

- Prepared and reviewed BOQs, cost estimates, and tender documents for electrical substation works.
- Conducted accurate quantity take-offs and material assessments from construction drawings and specs.
- Evaluated subcontractor and supplier contracts, achieving optimal cost efficiency.
- Monitored project budgets, processed change orders, and ensured effective cost control.
- Prepared progress payments and conducted site inspections to verify completion milestones.
- Maintained financial records, analyzed variances, and provided cost forecasts for budgeting.

Civil Site Engineer

Jul2016-Aug2018

RABINA CONSTRUCTION PVT LTD – Kathmandu, Nepal

- Supervised daily site construction activities to ensure compliance with approved drawings and technical specifications.
- Prepared BOQs, bar bending schedules (BBS), and regular progress reports.
- Conduct quality inspections with consultants and clients before proceeding to the next construction phases.
- Oversaw critical site operations, including formwork, rebar installation, concrete pouring, and curing.
- Coordinated with suppliers and vendors to ensure timely delivery of materials and site readiness.
- Maintained detailed documentation and enforced safety and regulatory standards throughout the project lifecycle.

NOTABLE PROJECTS

King Salman International Complex (MYDP), Ras Al-Khair:

A pivotal project under Aramco, involving large-scale civil infrastructure, requiring adherence to strict safety and quality protocols.

APC-DEOG Treatment Unit (Advanced Petrochemicals and United Petrochemicals):

Managed technical and construction challenges for an essential industrial unit within a SABIC facility.

Gas Network Connection to Plas-Chem Park:

Collaborated with the Royal Commission to establish a vital network for industrial utilities.

EDUCATION

Bachelor of Engineering (B.E.) Civil Engineering *Visvesvaraya Technological University (VTU) -Karnataka, India* **2012-2016**

Collage *Secab Institute of Engineering and Technology, -Bijapur, Karnataka, India*

TECHNICAL SKILLS

Design & Analysis Tools: *AutoCAD, Revit, Navisworks, ETABS, SAP, STAAD Pro*

Project Management: *Primavera P6, MS Project*

General Applications: *MS Office Suite (Excel, Word, PowerPoint)*

Documentation & Reporting: *BOQs, BBS, Method Statements, Risk Assessments, Procedure, MAR*
