Profile

Motivated Computer Engineering student specializing in cybersecurity and networking. Hands-on experience with network configuration, threat analysis, and incident response through internships at Zamil Group and ISEC. Certified IBM Cybersecurity Analyst and currently pursuing CCNA certification, with proven success in optimizing IT infrastructure and security protocols.

Education

Bachelor in Computer Engineering | Ted University, 2025
Relevant Coursework: Cybersecurity Fundamentals, Network Security, Data Structures. Ankara, Turkey

Professional Experience

IT Intern | Zamil Group Holding (Sep 2024 - Nov 2024) 2024

- Streamlined IT support operations, reducing resolution time by 15%.
- Configured network devices, improving infrastructure reliability by 20%.
- Provided technical support to over 50 employees, ensuring seamless IT functionality.
- Used Wireshark to analyze and troubleshoot network traffic, identifying and resolving bottlenecks.

IT Intern | ISEC (Sep 2023 - Dec 2023) 2023

- Configured and maintained network infrastructure, increasing efficiency by 15%.
- Conducted vulnerability assessments on 25 systems, reducing cybersecurity risks by 20%.
- Delivered end-user training on network security best practices, improving overall security compliance.

IT Intern | PAN (May 2023 - Sep 2023) 2023

- Installed and configured security cameras, increasing monitoring efficiency by 30%.
- Diagnosed and resolved hardware issues, improving service delivery time by 20%.
- Collaborated with a team to implement IT solutions, ensuring seamless integration.
