

ARFAN RAJA

Mechanical Engineer

Professional Summary

Experienced Mechanical Engineer and Aramco Certified Work Permit Receiver with a robust background in site engineering, project management, and maintenance services within the oil and gas industry. Demonstrated ability to translate theoretical knowledge into practical solutions, enhancing both technical and managerial skills. Proven track record of evaluating and recommending effective alternatives, and communicating recommendations clearly and efficiently. Seeking a full-time position with a reputable, growth-oriented organization that fosters continuous personal development and presents challenging opportunities to leverage my extensive experience.
