

# **Abdulhadi Ghaleb Halabieh**

Architecture engineer

**Address:** Alrughama, Jeddah, Saudi Arabia |

**Phone:** 966-551850984|

**E-mail :** [abdulhadi.ha23@gmail.com](mailto:abdulhadi.ha23@gmail.com)|

## **Summary**

Architectural Engineer. Fresh graduate from the Arab University for Science and Technology. Proficient in advanced engineering programs such as Revit, AutoCAD, and Lumion. Able to work within a team and lead it to achieve the required goals in the shortest time and with the highest quality.

## **Education**

### **Bachelor's degree in Architectural Engineer**

Arab University for Science and Technology (2020-2024)

- Graduation Date: Recent graduate

**Graduation Project:** Design of Renewable Energy Research Center

- Grade: Excellent

## **Experience and training**

- **Training : Mirath Scientific Assoiation** (1/1/2024 - 1/2/2024)
  - Implementing a survey of the floors and preparing plans.
  - Interior design of the rooms to meet the needs of the association.
  - Submitting innovative proposals for interior furnishings and improving the work environment.
- **Supervisor - Al-Mouwasat Hospital, Jeddah** (1/8/2024 -30/10/2024)
  - Follow up on gypsum board work for bedrooms
  - Preparing detailed reports on the progress of the work carried out

## **Graduation project**

- **Project Name:** Design of Renewable Energy Research Center
- **Description ;** The center was designed in the Kingdom of Saudi Arabia in the city of Jeddah. The site was chosen in the southern Obhur district. The center consists of a main building and an administrative building in addition to a conference hall. The flat slab system was used in the building's construction system. Cement board was used in the facades in addition to green concrete to help moderate the air. The site is also equipped with solar panels and wind turbines to provide electricity to the center.

## **Software Skills**

- Revit,
- AutoCAD,
- Lumion
- Photoshop

## **Soft Skills:**

- Strong ability to work under pressure and meet deadlines
- Effective time management and organizational skills
- Problem-solving and decision-making abilities
- Excellent communication and interpersonal skills

## **Languages:**

- Arabic: Mother tongue.
- English: Basic proficiency

## **Activities and Interests**

- Keeping up with the latest developments in the field of architecture and construction.
- Participating in training courses and scientific seminars to develop skills and knowledge in the field of architecture.

**Portfolio**
