EXPERIENCE = 4+ YEARS

Objective

I am an architect with 4+ years' experience in residential, commercial, and mixed-use projects. My passion lies in sustainable design and creating functional, aesthetically pleasing spaces. I thrive in collaborative environments that foster creativity and problem-solving through teamwork and open communication. My ability to work closely with clients, contractors, and diverse teams ensures successful project outcomes. I look forward to contributing to an innovative architecture firm where I can enhance my skills and drive impactful, sustainable design.

Skills & abilities

- Architectural Hand Drawing
- Conceptual Sketches
- Architecture Design
- Interior Design
- Landscape Design
- Floor plan Renderings
- Shop Drawings
- 2D Architectural Drawing

Experience

Design Architect | Mutalaq al Ghowairi (KSA)

FEB 2024 – NOV 2024

Design Development: Collaborate with senior architects to develop creative design solutions, assisting in the preparation of architectural drawings, blueprints, and detailed plans using software such as AutoCAD, Revit, and Sketch Up.

3D Modeling and Visualization: Create 3D models and visual representations of architectural designs using tools like sketch up, Revit, lumion and Photoshop to effectively communicate design concepts.

Project Documentation: Assist in compiling project documentation, including specifications, reports, and design briefs, ensuring all designs comply with local building codes, regulations, and sustainability standards.

Coordination and Collaboration: Work closely with project teams, including engineers, consultants, and contractors, to ensure smooth coordination across disciplines and successful project execution.

Architect | Global Office System GOS (KSA)

JUL 2023 – DEC 2023

Developing Design Concepts: Create and refine architectural designs from initial concept through final presentation, ensuring alignment with client needs and project goals.

Producing Detailed Drawings: Generate detailed architectural drawings and plans using industry-standard software such as AutoCAD, Revit, and Sketch Up.

Collaborating with Stakeholders: Work closely with clients, engineers, and construction teams to ensure design feasibility and address any technical or aesthetic concerns.

Conducting Site Analysis: Perform thorough site analysis to inform design decisions, considering factors like topography, climate, and existing structures.

Ensuring Compliance: Ensure all designs comply with local building codes, zoning regulations, and sustainability standards, integrating green building practices where applicable.

Junior Architect | Wahid and Waheed Architect (PAK)

AUG 2022 – OCT 2022

Assist in the Development of Design Concepts: Collaborate with senior architects to create initial design concepts and presentations, ensuring alignment with client requirements and project goals.

Drafting and CAD Modeling: Produce detailed architectural drawings and 3D models using software such as AutoCAD, Revit, and Sketch Up, adhering to project specifications and industry standards.

Site Analysis and Research: Conduct site visits and perform thorough analyses, including measurements, photographs, and surveys, to gather essential data for project planning and development.

Coordination with Project Team: Work closely with project managers, engineers, and other stakeholders to ensure seamless integration of architectural designs and adherence to project timelines and budgets.

Interne Architect | Wahid and Waheed Architects (PAK)

AUG 2021 – OCT 2021

Assist in Design Development: Collaborate with senior architects to develop design concepts and create detailed drawings and models using architectural software.

Conduct Site Visits: Participate in site visits to gather measurements, assess site conditions, and document existing structures for project planning.

Prepare Presentation Materials: Create visual presentations, including renderings and diagrams, to effectively communicate design ideas to clients and stakeholders.

Freelance Architect | Social Media Platform (PAK)

JAN 2021 – Present

- Provided architectural design services to global clients through virtual collaboration.
- Delivered detailed drawings, 3D renderings, and floor plan renderings remotely.
- Managed project timelines, budgets, and communications across time zones.
- Utilized AutoCAD, SketchUp, Lumion, photoshop and Revit for efficient remote project delivery.

Education

Bachelor of Architecture

2018-2023

Hazara university | CGPA 3.25/4

Thesis Topic: Promotion of industrial products / EXHIBITION CENTER

Intermediate

2015-2017

Major: Mathematics Physics, Chemistry, Biology.

Software skills

Architectural Software

- Auto CAD
- Sketch Up
- Revit
- Lumion
- Twin motion

Graphical Software

- Photoshop
- Microsoft Office
- Canva
