KEY RESPONSIBILITY:

- Ensure compliance of projects with the organization's established HSE plan.
- Coordinate various trainings and third-party inspections.
- Prepare and submit monthly EH&S statistical reports to the client.
- Prepare and provide activity-related documents at the workplace.
- Conduct daily, weekly, monthly, and quarterly inspections and monitor all activities and facilities.
- Attend meetings with various internal and external project stakeholders where safety is a primary concern.
- Participate in weekly safety walkthroughs with the client and rectify outstanding/pending issues.
- Establish control and preventive measures to provide a maximum risk-free environment for workers.
- Ensure easy accessibility to protective equipment as part of safety measures.
- Administer the Safety Awareness Program to promote a safe culture among the workforces.
- Participate in contractor bi-weekly engagement meetings.
- Stop unsafe practices and work, and control COSHH on site.
- Develop and update emergency evacuation plans as the project progresses.

- Create overall emergency plans and structures for the site, including assembly areas, exit routes, safe access, and emergency teams.
- Maintain security procedures on site.
- Implement safety rules and regulations as per client procedures.
- Conduct job site safety and environmental audits, including documentation of compliance and corrective actions taken.
- Inspect construction activities to identify potential hazards, advise supervisors and workforce of risks, and ensure safety precautions are implemented.
- Ensure appropriate fire prevention and protection measures are in place around the project premises.
- Ensure proper use of lifting gears, fire extinguisher placement, and color coding, along with documentation.
- Monitor toolbox talks and conduct safety meetings.
- Organize periodic safety meetings to review the organization's past performance on safety-related matters and implement follow-up procedures.
- Develop and deliver in-house training on health, safety, and environmental topics.
- Prepare preliminary reports on all accidents and incidents and participate in accident investigations where applicable.
- Participate in the preparation of risk assessments, review recommendations, and check compliance.
- Prepare and submit monthly reports to senior management.
- Ensure safe working procedures are adopted for rigging operations, work at height, scaffolding erection and dismantling, welding, cutting, grinding operations, construction equipment operations, and lifting activities.
- Display HSE information and signage.
- Ensure proper road safety is maintained, and all security measures are implemented.
- Advise on the requirements for site welfare and conduct regular inspections of the facilities, reporting any concerns to the project manager.
- Conduct job site safety and environmental audits, including documentation of compliance and corrective actions taken.
- Monitor the implementation and enforcement of safety requirements.
- Identify potential hazards on site and the safety precautions to be taken to prevent accidents.
- Achieve and sustain a zero-accident status through the combined efforts of all personnel involved.
- Possess leadership qualities to motivate and influence others to achieve safety functions and goals.

The content of this training conforms with U.S. Department of Labor (OSHA) training standards and ANSI Z490.1, Criteria for Accepted Practices in Safety, Health and Environmental Training.

Certificate of Appreciation

Presented to
MOHAMMAD ZEESHAN

In Appreciation of your valuable contribution and self-initiative and passion for reporting Safety Observations. Appreciate your efforts for using Stop Work Authority at QLPG Tank-1152 when the air compressor being used for providing ventilation in Tank-1152 does not have a valid calibration tag on its relief valve (References to Requirements: CSM Section 12.3.5- Equipment Calibration). Hence Job was stopped at QLPG on 13/Feb. /2025, then corrective action was taken immediately and awareness session conducted for working crew.

APPRECIATION LETTER FOR
ARABIAN FAL LIMITED COMPANY

To whom it may concern,

ERDD appreciate the outstanding demonstration of Stop Work Authority (SWA) by Arabian FAL Limited Company's Employee, namely, **Mohammad Zeeshan** in Month of February 2025. He did used Stop Work Authority at QLPG Tank-1152 when he observed that the air compressor being used for providing ventilation in Tank-1152 does not have a valid calibration tag on its relief valve (References to Requirements: CSM Section 12.3.5- Equipment Calibration). Hence Job was stopped at QLPG on 13/Feb. /2025, then corrective action was taken immediately and awareness session was conducted for working crew.

His vigilant actions support ERDD to prevent accidents and improve our working environment to protect ERDD facilities and personnel, showcasing the commitment to all workforce safety.

ERDD appreciate Mohammad Zeeshan initiative and encourage all contractor employees to continue utilization of Aramco Safe Life Portal for reporting unsafe behaviors or conditions.
