About Me

Highly talented, professional and dedicated Civil Engineer to achieve high career growth through continuous process of learning for achieving goal and keeping myself dynamic in the changing scenario to become successful professional and learning to best opportunity and am willing to work as a PLANNING ENGINEER in the required construction industry.

WORK EXPERIENCE- 2 YEARS

Nov 2023 - Jan 2025

PRAGMATIC INFRASTRUCTURE Ltd.

PLANNING ENGINEER

Roles and Responsibilities:

- Developing detailed project plans, schedules, and workflows using specialized software Primavera P6. This includes defining project scope, breaking down work into manageable activities, and determining the sequence of tasks.
- Creating baseline schedules and regularly updating them to reflect project progress and any changes.
- Estimating the resources (manpower, materials, equipment) and time required for each activity.
- Applying techniques like Gantt charts and the Critical Path Method (CPM) to optimize schedules.
- Preparing cash flow projections based on the project schedule.
- Tracking project progress against the planned schedule and identifying any delays or deviations.
- Analyzing the impact of delays and proposing mitigation strategies or recovery plans.
- Preparing progress reports, including observations, comments for stakeholders.
- Implementing effective monitoring systems to ensure adherence to schedules and milestones
- Attending and scheduling meetings with clients, contractors, and the project team
- Monitoring project expenditures to ensure the project remains within budget.
- Facilitating communication between different project teams.
- Assisting in budgeting and resource allocation decisions
- Identifying potential risks and conflicts that could impact the project timeline or budget
