- Collaborated with the Quality Assurance/Quality Control (QA/QC) and Planning departments to optimize project performance.

EDUCATION

**Bachelor of Science : Construction Managements
Prince Sultan University - Riyadh****09/2012 - 05/2017**

The field focuses on planning, organizing, and executing construction projects efficiently while ensuring adherence to schedules and budgets. It covers project management, cost estimation, quality control, construction techniques, contract management, and risk management to ensure projects are delivered to the highest professional standards.

TECHNICAL SKILLS

- Project Management
- AutoCAD
- BIM Tools
- Primavera P6
- Cost Estimation
- Quality Control
- Site Supervision
- Engineering Drawings Interpretation
- Microsoft Office Suite (Excel, Word, PowerPoint)

SOFT SKILLS

- Effective communication.
- Leadership.
- Time management.
- Flexibility and adaptability.
- Problem-solving.
- Teamwork.
- Stress management.
- Strategic thinking.
- Attention to detail.
- Negotiation.
