Joudat Toutah

Mechatronics Engineer

Profile

A recent Mechatronics Engineering graduate with proven ability to work effectively under pressure and a quick learner.

Possesses strong teamwork skills and has demonstrated creativity in various fields since middle school.

Has practical experience as a manager at a mobile phone marketing and purchasing center, as well as three years of experience operating printing machines at an advertising company.

Education

Mechatronics Engineering

Karabuk University

Bachelor's degree Jun 2019 — Dec 2024

Türkiye

Occupational Health and Safety

Anadolu University, Second university

Oct 2024 — Present Türkiye

Internships

PRO Otomasyon Elektrik Elektronik

Jul 2023 — Sep 2023 Gaziantep

During my electrical training, I learned to install and maintain circuits, read electrical

diagrams, and apply safety measures to avoid shocks and burns. I also gained experience with

residential, industrial, and network systems.

CNC Machine Engineer – SMF Elevators Company

01/10/2024 - 01/03/2025 Gaziantep

Worked at SMF Elevators Company as a CNC Machine Engineer, where I gained experience in designing parts using CAD software prior to the metal cutting process, operating CNC machines, and performing regular maintenance to ensure efficient and continuous operation.

I also learned how to operate metal bending machines after the cutting process, which gave me a comprehensive understanding of the full manufacturing workflow.

Courses

Visionary Leadership

Jan 2023 — Jun 2023

Hydraulic and Pneumatic

Jan 2024 — Jun 2024
