

AJAB KHAN

ISO 14001:2015, LEED GA, SCE registered, REDSEA & NGHC approved

PERSONAL DETAILS:

Total experience: 13 Years

Contact: +966-556112106

Email: engrajabkhan@gmail.com

Iqama Status: Transferable

EUDCATIONAL QUALIFICATION:

1. **M.Sc. Environmental Engineering**, CECOS University of IT & Engineering Sciences Peshawar-2013
(Course work completed)
2. **B.Sc. Civil Engineering**, University of Engineering & Technology Peshawar - 2010

PROFESSIONAL SKILLS:

- Environmental Compliance
- Environmental Law
- Sanitary Engineering
- Principles of water & waste water treatment process
- Environmental Planning
- Sustainable Development
- Environmental management system
- Waste Management
- Environmental Education & Environmental Awareness
- Environmental Impact Assessment
- Environmental Policy
- Environmental Auditing
- Performance Management
- Environmental Site Assessments

Languages

- English
- Arabic
- Urdu
- Pashto

Summary Biography

As a dedicated and results-driven environmental professional with a solid background in environmental management, I am committed to implementing innovative strategies that minimize ecological footprints, optimize resource efficiency, and ensure full compliance with industry regulations.

My vision centers on the successful integration of strategies that reduce environmental impacts while maximizing the responsible use of natural resources. I aim to ensure that every project I oversee contributes to environmental preservation and adheres to the highest regulatory standards.

I have developed a comprehensive expertise in various domains of environmental management systems, which includes the preparation, review, and implementation of Construction Environmental and Social Management Plans (CESMPs). Additionally, I possess significant experience in waste management, as well as the monitoring and assessment of critical environmental indicators such as noise, vibration, air quality, soil quality, and water quality. These areas of specialization have equipped me with the knowledge and tools to address the complex challenges that arise in managing environmental impacts during the lifecycle of construction and industrial projects.

Alongside my technical expertise, I bring exceptional leadership, communication, and problem-solving skills, which have proven invaluable in guiding cross-functional teams and working with stakeholders at all levels. My ability to communicate complex environmental concepts clearly both orally and in writing ensures that I can effectively engage with diverse audiences, including clients, regulatory bodies, and team members.

With an unwavering commitment to environmental conservation, I continually strive to drive positive change through the implementation of sustainable, innovative practices that protect our planet for future generations. I remain focused on delivering tangible, measurable results that benefit both the environment and the communities we serve.

WORK EXPERIENCE

1: ENVIRONMENTAL MANAGER (2023-Present)

Company Name: Larsen & Toubro Saudi Arabia

Project: Neom Green Hydrogen Project Oxagon, Neom

- To implement CESMP, plans & procedures.
- To coordinate with other departments to get environmental data.
