

PROFESSIONAL SUMMARY

Energetic and results-driven Electrical Engineer with over 9 years of international experience across the United States and Saudi Arabia in engineering design, infrastructure development, and strategic business development. A certified PMP and PMI-PBA professional with a strong academic foundation in Electrical Communication Engineering. Proven track record in managing complex energy and technology projects, including power generation, battery storage systems, and data center development, while fostering strategic partnerships with government and private sector stakeholders. A team player known for exceptional problem-solving skills, effective project execution from concept to completion, and strong team coordination. Highly self-motivated, adaptable, and committed to delivering high-impact, measurable results. A U.S. citizen with a valid American passport, open to relocation and travel, and eligible for Iqama transfer. Eager to bring my expertise and enthusiasm to your team and contribute to its success.

- Project Management Professional (PMP) - Project Management Institute
- PMI Professional in Business Analysis (PMI-PBA) - Project Management Institute

EDUCATION

- **Associate Degree in Computer Networking and Information Technologies, 2018**
City College of San Francisco, USA
- **Bachelor of Science in Electrical Communication Engineering and Electronics, 2011**
October 6th University, Egypt

WORK EXPERIENCE

Electrical Engineer & Business development specialist

Samsung C&T Corporation Saudi Arabia 2024 – Present

- Fostered and deepened strategic relationships between Samsung and various government entities, including ministries and agencies, focusing on electric power initiatives.
- Led engagement in high-level discussions and collaborations on power generation, battery energy storage systems (BESS), and advanced technology infrastructure, such as data center development in coordination with SDAIA and MCIT.
- Played a key role in the bidding process for multiple large-scale infrastructure and energy projects, overseeing both technical and commercial proposal submissions to ensure alignment with project requirements and business goals.

Project Coordinator / Field Engineer

New Found Growth Construction., San Francisco 2020 – 2023

- Supported preconstruction activities, ensuring high-quality, cost-effective, and timely project completions.
- Collaborated with project managers to identify labor and material needs by analyzing proposals, specifications, and project documents.

- Managed project documentation processes, including submittals, RFIs, change orders, and construction schedules.
- Conducted daily site inspections to monitor project progress, safety compliance, and quality standards.

Project Coordinator

2040 Services Inc., San Francisco

2017 – 2019

- Tracked and managed critical project documentation such as plans, permits, and utility applications to meet tight deadlines.
 - Performed administrative duties, including invoice preparation, estimates, and scheduling.
 - Oversaw contractor work quality, budget adherence, and scheduling.
 - Identified and mitigated risks during construction to minimize costs, avoid accidents, and reduce material changes.
 - Coordinated with clients, architects, contractors, and subcontractors across all construction phases.
 - Assisted in project planning and preparation of construction documents.
-
- Languages: Bilingual in English and Arabic.
 - Computer: Microsoft Project, Word, Excel, PowerPoint, Google Apps, AutoCAD, and Revit.
