## CAREER SUMMARY

RC-Certified Civil Superintendent with 9 years of experience managing large-scale oil & gas and industrial projects for Aramco, SABIC, and Royal Commission. Specializes in full-cycle project execution from planning to handover, with expertise in civil construction (pipelines, foundations, utilities, retaining walls) and complex works (deep excavations with shoring/dewatering). Proven track record in safety compliance, cost control, and on-time delivery while coordinating multidisciplinary teams. Technically skilled in AutoCAD, STAAD Pro, and Primavera P6 and Navisworks

## EDUCATION

**Bachelor of Engineering (CIVIL)**

2012-2016

**University:** Visvesvaraya Technological University (VTU) -Karnataka, India

**College:** Secab Institute of Engineering and Technology, -Bijapur, Karnataka, India

## EXPERIENCE

**Civil Superintendent**

July 2024 –Present

**GAS ARABIAN SERVICES – Jubail, Saudi Arabia**

- Supervise all civil construction works, ensuring timely progress, cost control, and resource optimization.
- Reduced construction delays by 15% through improved subcontractor coordination
- Monitor site operations and enforce compliance with safety, quality standards, and project specifications.
- Review and manage technical documents including shop drawings, BBS, BOQs, and method statements.
- Coordinate with stakeholders to resolve issues, maintain workflow, and track progress for reporting.

**Project Engineer**

Aug 2023-Jun 2024

**GAS ARABIAN SERVICES – Jubail, Saudi Arabia**

- Led planning and execution of civil works with a focus on schedule, quality, and cost efficiency.
- Oversaw daily site operations, ensuring adherence to safety protocols and technical requirements.
- Reviewed and prepared key project documents such as BBS, BOQs, shop drawings, and method statements.
- Collaborated with consultants, subcontractors, and site teams to resolve technical and construction issues.

**Technical Civil Engineer**

Jan 2021-July 2023

**SEPCO ARABIA –Al-khair Saudi Arabia**

- Approved 200+ shop drawings with zero rework, ensuring 100% Aramco compliance
- Developed method statements, Technical Queries (TQs), redlines, and Bar Bending Schedules (BBS) per Aramco standards.
- Issued FCNs and RFIs to resolve site discrepancies and supported construction teams with technical inputs.
- Coordinated with consultants for design approvals and material submittals.
- Maintained quality compliance and accurate engineering documentation throughout project phases.

**Civil Site Engineer**

Dec 2019-Dec 2020

**POWERCHINA JIANGXI HYDROPOWER ENGINEERING BUREAU CO.LTD. –Al-khair Saudi Arabia**

- Managed site execution of civil works, ensuring alignment with Aramco standards and safety regulations.
- Resolved site issues with consultants and subcontractors to maintain project momentum.
- Prepared site progress reports, performed inspections, and ensured timely material availability.
- Implemented HSE measures and documented technical compliance throughout construction.

**RABINA CONSTRUCTION PVT LTD – Kathmandu, Nepal**

- Prepared BOQs, cost estimates, and tender documents for substation and infrastructure projects.
- Performed quantity take-offs, monitored budgets, and processed change orders.
- Evaluated subcontractor contracts and maintained project cost control.
- Verified progress claims and ensured financial reporting and forecasting accuracy.

**Civil Site Engineer**

Jul 2016-Aug 2018

**RABINA CONSTRUCTION PVT LTD – Kathmandu, Nepal**

- Supervised daily site activities, formwork, rebar, concrete works, and compliance with specifications.
- Prepared BBS, BOQs, and coordinated with suppliers for timely material delivery.
- Conducted joint quality inspections with consultants and maintained site documentation.
- Ensured project safety compliance and quality standards were consistently met.

---

**CORE COMPETENCIES**

- **Project Management** – Planning, execution, cost control, and reporting
- **Construction Supervision** – Site coordination, subcontractor management, and QA/QC
- **Technical Expertise** – AutoCAD, Revit, STAAD Pro, Primavera P6, MS Project, Navisworks
- **Oil & Gas Projects** – Aramco, SABIC, and Royal Commission (RC) standards
- **Documentation & Compliance** – Shop drawings, TQs, BOQs, BBS, method statements, RFIs

---

**LANGUAGE**

English (Fluent) | Arabic (Intermediate) | Hindi (Fluent) | Nepali (Native)

---

**CERTIFICATION AND APPROVALS**

- RC Civil Superintendent (Royal Commission, 2024)
- SCE License (1020153, Valid until 2027)
- OSHA 30-Hour Safety Certification (2020)
- Primavera P6 Professional Certification (2022)

---

**NOTABLE PROJECTS**

**King Salman International Complex (MYDP), Ras Al-Khair – Aramco**

- Managed large-scale civil infrastructure, ensuring 100% compliance with Aramco standards.
- Delivered major civil works project 3 months ahead of schedule with zero safety incidents
- Oversaw structural and utility works, completing the project ahead of schedule.

**APC-DEOG Treatment Unit – Advanced Petrochemical / SABIC**

- Led **technical coordination** for critical process units within the SABIC network.
- Resolved 15+ design clashes, preventing 4-week delays.

**Gas Network Connection to Plaschem Park – Royal Commission (RC), Jubail**

- Executed **gas pipeline networks**, ensuring timely delivery and regulatory compliance.

---

**KEY ACHIEVEMENTS**

- Boosted productivity 20% by optimizing site workflows.
- Slashed delays 30% via proactive risk management.
- Trained 5+ junior engineers in Aramco standards.
