## PROFILE

Analytical & proactive Project Engineer with 12 years of experience managing high raised buildings and interior fit out projects in various parts of UAE & INDIA.

## EMPLOYMENT HISTORY

### Project Heads @ HN CONSTRUCTIONS

FEBRUARY 2023 – PRESENT

#### Responsibilities:

##### **Project Planning and Design:**

Developing project plans, scopes, and designs, considering factors like cost, feasibility, and regulatory compliance.

##### **Team Leadership and Management:**

Leading and mentoring a team of civil engineers and other professionals, including hiring, firing, and performance evaluations.

##### **Resource Allocation:**

Managing project budgets, procuring necessary materials, and allocating resources effectively.

##### **Client Communication and Management:**

Serving as the primary point of contact for clients, managing their expectations, and addressing their concerns.

##### **Quality Assurance and Risk Management:**

Ensuring project deliverables meet quality standards and identifying potential risks and developing mitigation strategies.

##### **Regulatory Compliance:**

Ensuring the project adheres to all relevant regulations and standards.

##### **Project Execution and Monitoring:**

Overseeing the construction phase, monitoring progress, and making necessary adjustments to maintain the project's trajectory.

##### **Reporting and Documentation:**

Preparing and maintaining project reports, documenting key decisions, and ensuring accurate record-keeping

**Business Development:**

Contributing to the growth of the firm by identifying and pursuing new project opportunities.
