 - **Contact:** (KSA): +966 556919926 | WhatsApp (TR): +90 5391152484
 - **Status:** Single
-

Profile

Recent Electrical and Electronics Engineering graduate with hands-on internship experience in automation, control systems, and electrical panel design. Skilled in AutoCAD, PLC programming, and troubleshooting electrical systems. Eager to apply technical skills and continue growing in a challenging engineering environment.

Work Experience

Matrix Engineering Services – Islamabad, Pakistan

Electrical & Electronics Engineering Intern | Dec 2024 – Apr 2025

- Assisted in creating detailed electrical schematics, wiring diagrams, and panel layouts using AutoCAD.
- Prepared and reviewed control circuit diagrams for automation and electrical systems.
- Supported the design and alteration of distribution boards and electrical panels.
- Collaborated with engineers to debug and optimize electrical designs.

Jamjoom Medical Industries Co. Ltd – Jeddah, Saudi Arabia

Electrical & Mechatronics Engineer Intern | Jul 2023 – Sep 2023

- Gained hands-on experience in automation, electronics, and electrical systems in biomedical devices.
- Worked with Programmable Logic Controllers (PLCs) and developed skills in designing, installing, and troubleshooting control panels.
- Tested and prototyped electrical components such as contactors and relays.

Education

- **European University of Lefke – Lefke, North Cyprus**
 - B.Sc. in Electrical and Electronics Engineering | Graduation: Jun 2024
- **Pakistan International School – Jeddah, Saudi Arabia**
 - Higher Secondary School | Graduation: Aug 2019
 - Secondary School | Graduation: Jun 2017

Skills

C, C++Tool,	AutoCAD	MATLAB	SolidWorks	Multisim	Microsoft office tools	PLC Programming
Electrical Panel Design	Troubleshooting	Keil & Proteus	Arduino	IOT Project	Schematic Designing	PRTG Network Monitoring (Basic)

Languages

English (Professional)	Urdu (Native)	Arabic (Moderate)	Turkish (Moderate)
