

PERSONAL DATA:

SADAM ABDU HASSEN ALZOMOR

Contact No: +966554050243
Nationality: Yemeni
Current address: ALRIYADH, KSA
Email: saddamalzomor@gmail.com

EDUCATION:

Bachelor's Degree in Civil Engineering -Ibb University, Yemen. Graduated in 2019 - 2018
Graduation Project: Design of an Earthquake Resistant Sixteen Story Building.
Project Grade: Excellent.

Professional Summary

I am Civil Engineer have Highly skilled with over 5 years of progressive experience designing and overseeing construction projects in Yemen and Saudi Arabia. Adept at supervising multi-story building developments from foundation through completion, ensuring strict adherence to safety regulations and quality standards. Proficient in structural analysis and design using industry-standard software (ETABS, SAP2000, SAFE, AutoCAD, Revit) and well-versed in international building codes (IBC, SBC, ACI, ASCE). Demonstrates strong leadership, communication, and problem-solving skills to successfully manage teams and project timelines.

COURSE AND CERTIFICATION:

- ✓ Diploma in English Language – University of Science and Technology.
- ✓ International Computer Driving License (ICDL).
- ✓ Building Information Modeling (BIM) using Revit Software.
- ✓ Structural Analysis and Design using CSI Software (ETABS, SAP2000, SAFE).
- ✓ Occupational Health and Safety (HSE) Course – Sana Institute.

WORK EXPERIENCE:

Manazil Al-Jazeera Contracting Company | Riyadh, Saudi Arabia | Mar 2023 – Present.

****Site Engineer**** Projects I have worked on

- A. Riad Al-Khabra Municipality buildings and facilities project.
- B. Riad Al-Khabra Markets and slaughterhouses project.

- Supervised the entire workflow at project sites from start to finish, leading a team of three supervisors and multiple workers.
- Followed up on the daily work progress, ensuring compliance with project schedules, safety standards, and quality requirements.
- Prepared and submitted all project-related documentation, work approvals, and reports to the consulting office.
- Coordinated material submittals, approvals, and inspections directly with the project owner.
- Ensured all construction activities adhered to project specifications, drawings, and applicable building codes.
- Identified site issues promptly and implemented effective solutions to minimize project delays.
- Conducted regular site meetings with supervisors and stakeholders to monitor project performance and align objectives.
- Supported quality control (QC) and health, safety, and environment (HSE) standards across the project site.
