SUMMARY

Dedicated and detail-oriented Electrical Engineer with strong field experience supervising daily operations, ensuring project continuity, coordinating with contractors, and delivering completed works to consultants. Skilled in site management, problem-solving, and ensuring compliance with project specifications and timelines.

EXPERIENCE

Electrical Site Engineer | 2023

Dur Alhada Compound Project, Riyadh

- Supervised and monitored on-site electrical activities to ensure progress according to schedules and standards
- Coordinated daily with contractors to address technical issues and ensure smooth workflow
- Prepared and submitted regular progress reports to project managers and consultants
- Inspected completed works and ensured readiness for final handover to consultants
- Ensured all work complied with applicable codes, standards, and safety regulations
- Assisted in solving site issues promptly to minimize delays and maintain timelines

Electrical/Mechanical Site Engineer | 2024

Murcia Project, Riyadh

- Supervised and monitored all on-site electrical installations and tasks
- Collaborated closely with contractors and consultants to ensure project specifications were met
- Provided timely solutions to technical and site-related challenges
- Reviewed mechanical shop drawings to ensure compliance with project requirements and codes
- Monitored on-site mechanical work execution and ensured quality of materials and installation
- Coordinated with architectural, structural, and electrical teams to prevent conflicts
- Attended coordination meetings between all project stakeholders

Electrical Site Engineer | 2025 – Present

King Faisal Specialist Hospital & Research Centre – Family Care Clinic Project

- Managing all electrical work activities ensuring adherence to project schedules and safety regulations
- Coordinating inspections and final approvals with consultants and project managers
- Resolving technical site issues and ensuring seamless project delivery
