PROFESSIONAL SUMMARY

A motivated and detail-oriented Electronic Engineering graduate with expertise in circuit and embedded systems design. Passionate about technology and innovation, with a strong ability to develop effective solutions and implement new technologies. Seeking an opportunity to apply engineering knowledge in a dynamic and collaborative environment.

EDUCATION & CERTIFICATIONS

Technical and Vocational College | 2022–2025

| 2022–2025

Bachelor of Electronic Engineering and Control Systems

- GPA: 4.51
- Honors: Second-Class Honor Degree

Professional Accreditation Certificate

RELEVANT COURSES & TRAINING

- Modern Techniques for Solving Maintenance Problems | 2025
 - Decision Planning | 2017
-

Technical Skills

- Programmable Logic Controllers (PLCs)
- Protobot Simulation Program
- Building Management System (BMS)
