

Omar Ahmed Beshr

PERSONAL PROFILE

Nationality: Egyptian

Email: omar_ahmad96@icloud.com

Phone number: +201063063605

CAREER OBJECTIVE

To secure a challenging position as a Civil Site Engineer at a reputable organization where I can utilize my expertise in construction management, technical skills, and dedication to contribute to the successful completion of high-quality projects.

PROFILE

Dedicated Civil Site Engineer with a strong foundation in civil engineering principles and 5 years of experience in the construction industry. Adept at managing complex projects, ensuring quality standards, and maintaining safety protocols. Proficient in leveraging engineering software for efficient project execution.

WORK EXPERIENCE

September 2021 to Present.

Site Civil Engineer – Concord For Engineering & Contracting

Project: Future of Egypt.

- ***Pipe Jacking Culvert***

Key Responsibilities;

- Execute concrete works and steel pipe installations (2500 mm diameter) for 11 tunnels.
- Supervise tunneling and jacking operations.
- Oversee on-site workforce and ensure compliance with safety standards.
- Coordinate with project stakeholders and ensure timely progress.
- Prepare and review engineering plans, specifications, project schedules, and budgets.
- Conduct site inspections to ensure construction complies with design specifications and safety standards.
- Manage procurement and ensure timely delivery of materials.
- Resolve technical issues and provide solutions to construction challenges.
- Liaise with clients, subcontractors, and regulatory authorities to ensure project requirements are met.
- Prepare progress reports and present project updates to senior management.

- **Water Lifting Station (10 Million m³ Capacity)**

- Executed all civil works related to the pumping station.
- Performed reinforced concrete works for the reception basin using **fiber-reinforced concrete** (total volume: **800 m³**).
- Implemented foundation works, structural concrete, and waterproofing for the station building and roof

EDUCATION

Graduated from the **Arab Academy for Science, Technology & Maritime Transport** with a Bachelor of Science in Civil Engineering in January 2020, achieving a GPA of 2.4/4.0 (Good). My graduation project focused on Road Design, for which I received an Excellent grade.

TRAINING

- **Project Expansion of Al-Haram Mosque, Makkah**

Civil Engineering Intern

- **June 2018 – August 2018** ○ Assisted in the supervision of various construction activities, ensuring compliance with project specifications.
 - Conducted site inspections and reported on construction progress.
 - Collaborated with senior engineers in planning and coordinating daily construction tasks.
 - Gained hands-on experience in concrete works and structural engineering practices.
 - Trained in steel and concrete works.

- **LANGUAGES SPOKEN**

Impressive knowledge of written and spoken English (Very Good)

Arabic: Native

Technical Skills:

- AutoCAD
- Microsoft Excel
- Microsoft Word
- Shop Drawings (ASD)

Personal Skills:

- Team work skills
- Excellent communication abilities
- Detail-oriented and highly organized

- **Summary of Achievements:**

- Successfully managed and executed concrete works and steel pipe installations for 11 tunnels as part of the "Future of Egypt" project.
- Coordinated with project stakeholders to ensure timely progress and compliance with safety standards, resulting in smooth project execution.
- Received an Excellent grade for the graduation project focused on Road Design at the Arab Academy for Science, Technology & Maritime Transport
