  - Traffic Safety Systems & Installations
  - Risk Management & Quality Control
  - Stakeholder Communication
  - Site Supervision & Execution Planning
  - Team Leadership & Development
  - Technical Office Works
  - Budget & Resource Planning
  - Cross-functional Coordination
  - Maintenance Systems (Maximo)
  - Contract Administration
- 

## Work Experience

**Zoman Mohammed Al-Hajri & Partners Contracting Co.**  
**Site Engineer & Work Order Manager**

**(December 2022 – Present)**  
**Al-Jouf, Saudi Arabia**

**Projects:** ministry of transport (MOT)

Road Maintenance Project Tabarjal / Abu Ajram / Al- Bisita, performance Contract No. (1303).

Work Orders: -

- Work Order No. 12362: Asphalt scraping and Paving Works on Roads 80 and 65 at Various Locations.
- Work Order No. 31307: Additional Asphalt Layer on Jadco Road with Necessary Safety Installations.
- Work Order No. 39570: Installation of Signs on Roads 65 and 80, with Installation of Metal Guardrails.

### Responsibilities:

Manage and supervise all site activities, including routine and corrective maintenance and work orders, in accordance with technical specifications and standards.

Execute and oversee various work orders, coordinating with teams and contractors to ensure timely completion.

Liaise with Ministry of Transport engineers and consultants to resolve on-site obstacles.

Manage traffic diversion operations on site.

Conduct regular inspections to ensure safety compliance and resolve technical issues on site.

Utilize the Maximo program to process corrective maintenance observations and safety inspections, and follow up with inspectors to close out pending observations.

Prepare schedules for routine maintenance teams using the Maximo program, ensuring timely execution.

Prepare and submit reports as required by the ministry and other stakeholders.

---

## Project Manager

**(April 2019 – December 2022)**

**Projects:** ministry of transport (MOT)

Traffic Safety Installations Project in Al-Jouf Region.

Protective barriers Implementation Project in Al-Jouf Region.

Intersection Improvement Project in Al-Jouf Region.

Intersection Improvement Project in the Northern Borders Region.

---

## **Responsibilities:**

Oversee full project lifecycle, including planning and execution from initiation to closure, ensuring objectives are met within defined timelines and budget.

Prepare and monitor the project execution schedule.

Coordinate directly with clients and consultants to ensure work conforms to technical specifications and approved standards.

Manage teams of engineers, technicians, subcontractors, and suppliers to ensure quality performance and timely completion.

Monitor the supply and installation of traffic safety elements (paints, reflectors, cat eyes, metal and concrete barriers, cylindrical barriers, and traffic signs), as well as asphalt works.

Prepare and approve traffic diversion plans and supervise their implementation.

Prepare and submit quantity surveys, invoices, technical reports, correspondence, and scope change orders.

---

## **Manwa Trading & Contracting Co.**

**(February 2017 – April 2019)**

### **Site Engineer**

**Al-Jouf, Saudi Arabia**

**Projects:** ministry of transport (MOT)
