 Saudi Arabia

OBJECTIVE

I am seeking a professional opportunity in a motivating environment where I can develop my engineering skills and apply my academic knowledge in real-world settings. I aspire to contribute to the execution of high-quality infrastructure projects with a commitment to efficiency and excellence. I am eager to learn continuously, work within a team, and take on responsibility. I am looking for a chance to start my professional journey in the construction or engineering consultancy sectors.

EDUCATION

Jazan University

Bachelor's Degree in Civil Engineering

Expected Graduation: 2025

Graduation Project: Design of Residential Buildings Using Reinforced Concrete According to the Saudi Building Code SBC 304 and SBC 1101
