## EDUCATION

### Technical and Vocational Training Corporation

Degree: Diploma

Major: Electrical Power

---

## INTERESTS

**Electrical Safety:** I am committed to adhering to electrical safety standards and continuous training to ensure a safe and hazard-free work environment.

**Preventive Maintenance:** I am interested in applying preventive maintenance strategies to detect and solve issues before they cause breakdowns or accidents.

**Electrical Technology:** I keep up with the latest developments in electrical technology, including smart systems and renewable energy, to enhance performance and efficiency.

**Professional Development:** I always strive to attend training courses and workshops to obtain advanced certifications in the electrical field.

**Teamwork:** I believe in the importance of effective teamwork, especially in emergencies, to ensure quick response and accurate execution.

**Continuous Learning:** I am committed to staying updated with the latest developments in the electrical field and continuously improving my skills to deliver the best performance at work.

## CAREER OBJECTIVE

To join a professional work environment that enables me to develop my scientific and practical skills, acquire new knowledge and experiences, and be an active and productive member to achieve success and growth, contributing to the development of the organization I work with.

---
