SUMMARY

A highly motivated and detail-oriented site engineer with hands-on experience in site supervision, project coordination, and construction management. Skilled in managing construction sites, ensuring quality control, and overseeing daily operations for residential and commercial projects. Proficient in material management, cost tracking, and assisting with project planning and scheduling. Experienced in working with multidisciplinary teams and coordinating subcontractors to ensure timely project completion while adhering to safety and quality standards. Demonstrates strong communication, problem-solving, and leadership skills, with a solid foundation in AutoCAD and project management software. Eager to contribute to the successful execution of large-scale engineering projects in a dynamic, collaborative environment.

KEY COMPETENCIES

- Site Supervision
- Project Coordination
- Construction Quality Control
- Material Management
- Construction Safety Awareness
- Workforce Supervision
- Cost Tracking & Budget Assistance
- Blueprint & Drawing Assistance
- Project Reporting
- Autocad and Drafting Support
- Subcontractor Coordination
- Technical Support
- Interpersonal Skills
- Team Collaboration & Leadership Potential
- Problem-Solving

PROFESSIONAL EXPERIENCE

Fakhr Al-Sharq General Contracting, Jeddah

Feb 2025 - Present

Site Engineer

- Oversee and coordinate all on-site construction activities, ensuring adherence to project specifications, timelines, and budgets.
- Supervise the installation of structural components, ensuring quality standards are met and compliance with engineering drawings and local building codes.
- Inspect construction sites regularly to identify and resolve technical issues, ensuring minimal disruptions to the project's progress.
- Communicate with contractors, subcontractors, and suppliers to ensure timely delivery of materials and efficient workflow.
- Prepare daily reports documenting site activities, progress, and any challenges, providing regular updates to senior management and stakeholders.

MT Group

Jun 2023 - Present

Freelance Finishing Engineer

- Execute comprehensive interior finishing projects, including plastering, painting, tiling, and flooring, ensuring precise attention to detail and high-quality results.
- Coordinate all aspects of the finishing process, from sourcing materials to managing subcontractors, ensuring timely and cost-effective project completion.
- Inspect and ensure that all finishing works meet the required technical standards, quality benchmarks, and client specifications.
- Maintain direct communication with clients throughout the project, providing progress updates and adjusting plans to meet evolving needs.
- Deliver post-completion support, addressing any client concerns or adjustments needed to ensure lasting satisfaction and project durability.

TRAINING

El Gamal Group

Jan 2023 - May 2023

Trainee

- Completed intensive training in civil engineering practices with a focus on site management and execution.

AL Omda Company

Jun 2022 - Sep 2022

Trainee

- Gained hands-on experience in road construction and paving techniques.

AL Rowad Company

Jul 2021 - Sep 2021

Trainee

- Gained hands-on experience in road construction and paving techniques.

COURSES & PROFESSIONAL DEVELOPMENT

- **Microsoft Excel**
- **Microsoft Word**
- **Autocad**

EDUCATION

- **Bachelor's Degree in Civil Engineering | Nile Academy for Engineering and Technology | 2021**

LANGUAGE

- **Arabic:** Native
- **English:** Good
