Tabuk, SA

Education

2021-2025
Bachelor of Electrical Engineering
Fahad Bin Sultan University

Skills

- Teamwork
- Creativity
- Problem-solving
- Communication
- Microsoft Office
- Time management

Language

- Arabic (Native)
- English

Profile

A passionate Electrical Engineering graduate eager to apply theoretical knowledge in real-world settings. Seeking a career opportunity that will allow me to further develop my engineering skills, deepen my practical understanding of electrical engineering, and contribute effectively to team objectives while striving for excellence in engineering projects.

Project

- **Graduatoin Project: Home Safety** Dec, 2024
 - Developed a home monitoring system using various sensors integrated with an Arduino board.
 - The system includes temperature and humidity monitoring displayed on a screen to help maintain a healthy indoor environment.
 - Implemented motion, gas, and door sensors to enhance security and safety.
 - Aimed to provide real-time alerts and environmental data to support better health and home protection.

Courses

- Occupational Safety and Health | 3 days | FBSU
- Microsoft Office
- Matlab
