Construction & Processing Manager | Site Investigation Engineer | Quality Control Engineer | Project Management Professional (PMP) | Construction Project Manager | Engineering Site Supervisor | Senior Project Engineer

A highly skilled and experienced Construction & Processing Manager with a robust background in site investigation, quality control, and project management within the engineering and construction sectors. With over 9 years of expertise, I have successfully led complex projects, such as a Crusher Plant part of The LINE project by developing detailed construction plans, managing procurement, overseeing subcontractors, and optimizing production processes. My experience extends to performing quality control audits, conducting risk assessments, and ensuring compliance with ISO 9001 standards as an internal auditor. Throughout my career, I have demonstrated a strong ability to supervise and manage construction and production operations, ensuring safety compliance and maintaining high standards of quality. My technical proficiency in Microsoft Office, AutoCAD, GIS, and advanced Excel, coupled with my certifications in NEBOSH, ISO 9001, and PMP, has enabled me to contribute effectively to various engineering and construction projects. I am adept at problem-solving, team leadership, and project management, with a proven track record of delivering projects on time and within budget while maintaining a keen focus on safety and quality. My commitment to continuous improvement is evident through my extensive training in construction supervision, soil mechanics, and material testing, making me a valuable asset to any organization in the engineering and construction industry.

## Signature Competencies

Project Planning - Site Supervision - Quality Control Auditing - Risk Management - Procurement Management - Subcontractor Oversight - ISO 9001 Compliance - Safety Compliance - Equipment Management - Production Optimization - Soil Investigation - Slope Stability Supervision - Shoring Systems Execution - Material Testing - Resource Allocation - Construction Scheduling - Diagnostic Automation - Contract Compliance - Engineering Specifications Review - Construction Material Testing - Team Leadership - Communication Skills - Problem Solving - Technical Proficiency (AutoCAD, GIS, Excel) - Time Management - Project Management (PMP) - Drilling and Blasting Planning - Report Preparation - Stakeholder Communication - Supply Chain Verification

## Work Experience

### Construction & Processing Manager | National Basics Company

Sep 2023 – June 2025

#### Project: Crusher Plant, Part of The LINE

##### Key Highlights:

- **Planning and Scheduling:** Developed a comprehensive construction plan for the crusher project, encompassing timelines, resource allocation, and risk mitigation strategies.
- **Procurement Management:** Managed procurement processes for materials, equipment, and services, ensuring timely delivery and adherence to project specifications.
- **Subcontractor Oversight:** Oversaw subcontractor activities, ensuring compliance with project specifications, quality standards, and safety regulations.
- **Progress Reporting:** Prepared detailed progress reports and documentation for stakeholders, maintaining clear communication and transparency.
- **Site Supervision:** Led and supervised construction crews, ensuring quality workmanship, adherence to safety standards, and timely completion of project milestones.
- **Equipment Management:** Oversaw the operation and maintenance of crushers, conveyors, and other heavy equipment to ensure optimal performance and minimize downtime.
- **Production Optimization:** Implemented strategies to enhance production output while maintaining rigorous quality control standards.

### Site Investigation Engineer | Jordan Engineers Association

Feb 2016 - Sep 2023

##### Key Highlights:

- **Soil Investigation Auditing:** Audited comprehensive soil investigation reports to ensure accuracy and compliance with engineering standards.
- **Excavation Supervision:** Supervised excavation processes, including slope stability assessments and the execution plan of shoring systems, ensuring safety and efficiency.
- **Material Testing Auditing:** Conducted audits of material testing reports, ensuring adherence to project specifications and quality standards.
- **ISO 9001 Internal Auditor:** Served as an ISO 9001 internal auditor, ensuring compliance with quality management systems.
- **Health and Safety Liaison:** Acted as the Occupational Health and Safety Liaison Officer, promoting workplace safety and adherence to safety regulations.
- **Risk Assessment:** Performed risk assessments and analyses for the Engineering Department, identifying potential hazards and recommending mitigation strategies.

**Key Highlights:**

- **Pre-Production Audits:** Conducted quality control audits on the pre-production supply chain, verifying the continuity and compliance of raw materials.
- **Quality Requirement Validation:** Reviewed and validated quality requirements for manufacturing planning, supplier purchase orders, and engineering specifications to ensure contract compliance.
- **Risk Management:** Enhanced risk management measures through spot-checking and increased randomization of inspections, improving overall product quality.
- **Diagnostic Automation:** Integrated diagnostic automation tools to accelerate and improve the accuracy of post-production testing processes.

**Site Engineer | Gamma Mining Company****Aug 2015 - Dec 2015****Project:** AlDamkhi Quarry**Key Highlights:**

- **Operations Supervision:** Supervised processing and production operations, ensuring efficiency and adherence to project timelines.
- **Drilling and Blasting Planning:** Prepared detailed plans for drilling and blasting operations, optimizing resource usage and safety.
- **Daily Reporting:** Managed and prepared daily reports for crusher plant operations, providing insights into production performance.
- **Safety Compliance:** Followed and enforced safety instructions at the quarry, ensuring a safe working environment.
- **Equipment Oversight:** Monitored the functionality of mining equipment, ensuring proper operation and minimizing downtime.
- **Project Management:** Managed and coordinated construction projects at the site, ensuring adherence to safety regulations, budget constraints, and quality standards.
- **Quality Collaboration:** Collaborated with the Quality Control team to monitor and ensure the quality of production processes.

---

**Educational Qualifications**

- **Bachelor in Mining Engineering**  
*Tafila Technical University, AlTafila, Jordan*  
Sep 2011 - Jun 2015

---

**Courses and Certifications**

- **Associate Engineer | JCPQA | Sep 2019**
- **Internal Auditor | SGS | Jul 2017**
- **NEBOSH Award in H&S at Work | NEBOSH | Nov 2018**
- **Managing Safely | IOSH | Dec 2021**
- **Chief of Engineering Offices (Site Investigation) | JEA | Feb 2022**
- **Chief of Engineering Offices (Materials Testing) | JEA | Apr 2022**
- **Membership | Saudi Council of Engineers | Oct 2023**
- **Membership | PMI | Jul 2024**
- **Quantity Survey | 20 Hours | Jul 2013**
- **Excel Advanced | 10 Hours | Mar 2014**
- **Construction Supervision Training Program | 20 Hours | Aug 2016**
- **2D AutoCAD | 18 Hours | Dec 2016**
- **Soil Mechanics and Material Testing | 12 Hours | Feb 2017**
- **ISO 9001:2015 Internal Auditor | 16 Hours | Jul 2017**
- **Introduction to Geographic Information System (GIS) | 15 Hours | Oct 2017**
- **Project Management Professional (PMP) | 40 Hours | Oct 2018**
- **Soil Shoring & Slope Stability Supervision | 30 Hours | Sep 2020**
- **Construction Material Testing and Mix Design of Asphalt and Concrete | 81 Hours | Nov 2022**
- **Project Management Professional (PMP) | 40 Hours | Jul 2024**

---
