Profile:

A Senior Civil Engineer with +15 years of experience in large scale road, infrastructure, oil & gas, building projects. Proven execution, quality control, and PMC coordination for mega projects (up to \$9.45B). Adept at leading multidisciplinary teams, ensuring compliance with client standards, and delivering projects on time and within budget.

Seeking to leverage technical and managerial skills to contribute to innovative construction projects.

Education

Sep. 2004 – Aug. 2009: **Aleppo University, Aleppo, Syria**
Bachelor's Degree in Civil Engineering.

Professional Experience

I have been working with CCC in different roles from 2010 till now as listed below:

Position: Senior Civil Engineer **(Feb. 2018 – Current)**
Project: BACS Riyadh Metro Project - Riyadh, Saudi Arabia
Budget: US\$ 9.45 Billion
Client: Royal Commission for Riyadh City (RCRC)

Senior engineer who was responsible for road, infrastructure, and landscaping works in OBC and elevated station (2C3). Tasks included but not limited to:

- Closely coordinated with PMC for execution, handover, and challenge resolution to ensure project compliance.
- Oversaw civil and infrastructure works including sewer, storm, irrigation, and utilities networks ensuring alignment with PMC and client requirements.

- Supervised major road works such as subgrade, asphalt paving, and final road marking inspections.
 - Led quality control and inspection processes for hardscape (pavers, street furniture, architectural concrete) and softscape (trees, shrubs, irrigation).
 - Monitored subcontractor progress resolved disputes and maintained quality & safety standards as per PMC audits.
-

Position: Project Engineer **(Dec. 2015 – Feb. 2018)**

Project: Jazan Refinery Tank Farm (JRTF) - Jazan Economic City, Saudi Arabia
