

# NAJAM US SAQIB QURESHI

## 3D Visualizer | 3D Modeler | 3D Artist | W.A

Architectural Engineering works  
Exterior & Interior Design Development.

### Experience

### About Me

I am a passionate and detail-oriented 3D Visualizer, Modeler, and Artist with over 15 years of experience in creating high-quality 3D architectural models, photorealistic renders, and immersive walkthrough animations. With a solid foundation in architectural and interior design visualization, I specialize in transforming concepts and technical drawings into visually compelling 3D presentations. My portfolio spans residential, commercial, and infrastructure projects, where I've consistently delivered creative and technically sound visual solutions that communicate design intent with clarity and impact.

I am highly proficient in industry-standard software, including 3ds Max, Corona & V-Ray Renderer, AutoCAD, Revit, and Adobe Photoshop. Whether developing concept visuals or producing full walkthrough animations, I bring ideas to life with a combination of precision, creativity, and efficiency—built on a decade and a half of hands-on experience collaborating with architects, designers, and project stakeholders.

### Education

#### Diploma of Associate Engineering

Govt. Polytechnic Institute Abbottabad NWFP

#### Matriculation (SSC)

Govt. Boys Higher Secondary School Ausia Murree

#### Course of 2D & 3D Design Using AutoCAD

AutoCAD College Computer Rawalpindi

#### Course Dedicated to 3D Visualizations 3ds Max

Auto CAD professional College Rawalpindi

### Skills

- 3ds Studio Max ●●●●●○
- Corona and V-Ray Renders
- AutoCAD ●●●●●○
- Revit ●●●○○○
- Adobe Photoshop ●●●○○○
- MS Office ●●●○○○
- Driving License (KSA)

### Language

- Urdu
- English
- Arabic

#### 2021 – 2025

Intelligence Bureau Employees Cooperative Housing .Authority  
**3D Visualizer | 3D Modeler | 3D Renderer | Auto Cad**

- A cooperative housing authority that focuses on construction and architectural design.
- Worked closely with architectural and design teams to plan and visualize construction projects
- Presented and explained visuals to colleagues and clients
- Ensured all ideas are represented accurately and attractively
- Assisted with planning decisions and produced high-quality atmospheric visualizations for presentations
- Developed static visualizations and CGI

#### 2016 – 2018

CITE' .Architectural | Planning & Design Group

**3D Visualizer | 3D Modeler | 3D Renderer | Auto Cad**

- An architectural and planning firm specializing in construction documents.
- Worked closely with architectural and design teams to plan and visualize construction projects
- Presented and explained visuals to colleagues and clients
- Ensured all ideas are represented accurately and attractively
- Assisted with planning decisions and produced high-quality atmospheric visualizations for presentations
- Developed static visualizations and CGI

#### 2012 – 2016

Saudi Binladin Group (KSA)

**QS . Auto CAD Operator**

- A leading construction and project management company in Saudi Arabia.
- Reviewed construction plans and prepared quantity requirements
- Liaised with managers and clients while preparing reports and budgets
- Established relationships with stakeholders and documented changes in design

#### 2007 – 2012

CITE' .Architectural | Planning & Design Group

**3D Visualizer | 3d Designer | Auto Cad Draft (Arch)**

- An architectural and planning firm specializing in construction documents.
- Worked closely with architectural and design teams to plan and visualize construction projects
- Presented and explained visuals to colleagues and clients
- Ensured all ideas are represented accurately and attractively
- Assisted with planning decisions and produced high-quality atmospheric visualizations for presentations
- Developed static visualizations and CGI
