

MUHAMMAD USAMA ALI

CIVIL ENGINEER

ABOUT ME

Civil Engineer with hands-on experience in construction execution, site inspections, and technical specs. I've worked on everything from foundation design to large-scale industrial projects—ensuring quality, safety, and structural integrity every step of the way. Comfortable with CAD, confident on-site, and committed to doing the job right, every time..

WORK EXPERIENCE

Tamimi Group of Companies Feb 2025 – Present

Civil Engineer (BBS, Estimation & Design Review)

- Prepared bar bending schedules for RCC structures, reducing material waste by 12%.
- Coordinated with structural teams to optimize rebar use and cut project costs.
- Reviewed drawings for compliance, resolving design issues and improving constructability.
- Estimated project costs and timelines using AutoCAD and Excel for industrial works.

Tamimi Group of Companies 2023 – Jan 2025

Site Engineer

Project: 20k Persons NEOM Residential Community, Oxagon

Client: SAJ

- Supervised construction of roads, hardscape, and infrastructure components for a major residential project.
- Ensured compliance with safety standards and building codes through regular site inspections.
- Implemented cost-effective solutions to engineering challenges, improving project efficiency.
- Led on-site teams to maintain high productivity and work quality.
- Reviewed permits and regulatory processes to minimize project risks.

Royal Engineering Associate Oct 2022 – Nov 2023

Site Engineer

Project: Pak Suzuki Motor Company

Client: Construction of Plastic Shop

- Handled structural work, civil construction, and surveying tasks including layout, leveling, and excavation.
- Oversaw both civil and mechanical site activities to ensure smooth execution.
- Coordinated with consultants, regulatory bodies, and client representatives during on-site inspections.

Jubail, Eastern, Saudi Arabia

EDUCATION

BS CIVIL ENGINEERING

The University of Faisalabad
2017 – 2021

INTERMEDIATE IN SCIENCE

Saleem Nawaz Fazaia College,
Karachi
2015 – 2017

MATRICULATION IN SCIENCE

Saleem Nawaz Fazaia College,
Karachi
2013 – 2015

APPROVAL

NEOM Approved Site Engineer

Verified in 2023

(document available upon request)

COMPETENCIES

- Critical design review
- Project oversight
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

EXPERTISE

- AutoCAD
- Revit
- MS Excel
- MS Project

Adcon Engineering

Jan 2022 - Sep 2022

Site Engineer

Project: Construction of RO Plant, Boiler House & Cooling Towers

Client: Chashma Sugar Mills – Unit 2

- Managed structural works, BBS preparation, surveying, and site execution.
- Applied engineering principles to resolve on-site issues and implemented corrective actions.
- Conducted construction safety audits and led regular safety meetings.
- Reviewed site work for compliance with technical drawings and specifications.
- Performed daily site visits to monitor progress and ensure quality standards.

Frontier Works Organization (FWO)

June 2021 - Dec 2021

Site Engineer

Project: Construction of NASTAP Building

Client: Pakistan Air Force | Consultant: NESPAK

- Supervised structural and concreting works on-site.
- Maintained a detailed site diary to track progress and optimize productivity.
- Coordinated with civil technicians for equipment planning and map updates.
- Recommended technical design changes to enhance performance and efficiency.
- Prepared and delivered progress reports for non-technical stakeholders.

Yukon

Aug 2019 - May 2021

Site Engineer (Internee)

Project: Construction of Underpass & Canal

Client: NLC (National Logistics Cell)

- Scheduled daily tasks, coordinated site logistics, and monitored project progress.
- Developed SOPs and change controls for equipment setup, maintenance, and operations.
- Reported project milestones, updates, and potential risks to the Project Manager.
