## PROFESSIONAL SUMMARY

---

Dedicated and proactive HSE Officer with hands-on experience in implementing health, safety, and environmental policies in the workplace. Currently serving in an HSE role, gaining practical knowledge in risk assessment, incident reporting, safety audits, and employee training. Committed to ensuring compliance with local and international safety standards, while actively promoting a strong safety culture. Known for attention to detail, a strong work ethic, and the ability to effectively communicate safety procedures across all levels of an organization. Eager to grow professionally and contribute to safer, more sustainable work environments.
