PROFESSIONAL SUMMARY

A General and Senior Land Surveyor with over 7years of experience in site surveying across various sectors including construction, finishing works, landscaping, structural steel projects (such as the Sindalah Island project), and infrastructure development. Proficient in operating all types of surveying instruments and highly skilled in using AutoCAD and Civil 3D. Experienced in preparing detailed surveying reports for consultants, with strong ability to read, interpret, modify, and execute engineering drawings with high precision and professionalism.,

EDUCATION

- Bachelor's degree in Surveying and Maps, *Tanta university* -2017

EXPERIENCES

- , *BEC Arabia* 3/2021-Until now  
Project Highlight: Sindalah Island Project – Tabuk  
Worked on all aspects of the project including construction works, metal installations, finishing works, and infrastructure. Additionally, I was responsible for supervising site surveyors and coordinating the scheduling and execution of all surveying tasks.
- , *First Princes General Contracting* 4/2019-1/2021  
Project Highlight: Construction of 1,000 Social Housing Villas  
Worked as a Senior Surveyor on this large-scale residential project. Responsibilities included extracting survey data, calculating cut and fill quantities, preparing detailed technical reports, and executing on-site surveying tasks to support construction progress with high accuracy and efficiency.
- , *Hassan Allam Holding* 9/2017-1/2019  
Project Highlight: The Republican Palace – New Administrative Capital  
Worked on all aspects of the project including concrete works, finishing, metal structure installations, and landscaping. Played an integral role in site surveying, execution, and coordination across multiple stages of the project, ensuring precision and alignment with engineering plans and timelines.
